PRICE FIVE CENTS

Czech Problem At Acute Stage

Halifax Informed Conciliatory Spirit Most Urgent Mediator in London

By J. F. SANDERSON
Canadian Press Staff Writer
LONDON (CP) Cable—The Czechoslovak problem, on which rests European peace can be solved only if both sides show a spirit of conciliation, F. T. A. Ashton-Gwatkin is reported to have told Viscount Halifax, Foreign Secretary, and Sir John Simon, Chancellor of the Exchequer, at a conference at the Foreign Office today.

Viscount Runciman's right hand man as mediator at Europe's danger point—Prahá—gave the two cabinet ministers his firsthand impressions of the problem, while unofficial reports circulated that almost a deadlock had been reached between the Czechoslovak government and the Sudeten German minority which clamors for autonomy.

The British government made no effort to hide the serious view it takes of the situation in Central Europe. This attitude may be reflected in the speech Sir John Simon will make in Scotland next Saturday.

WARNING OF DANGER

A section of the London press predicted Sir John will repeat the warning Prime Minister Chamberlain gave in the House of Commons March 24 that if France were drawn into war as a result of aggression on Czechoslovakia, Great Britain would almost be sure to be found at the side of France.

There was absolutely no confirmation of this prediction in official circles, which point out Lord Runciman is engaged in a peace mission which could be easily upset.

Despite official denials, reports continued of new developments.
(Turn to Page 2, Col. 6)

Moffatt Succumbs To Wounds

Five Bullets Pierced Body of British Commissioner

JERUSALEM (AP)—J. S. Moffatt, British assistant district commissioner, died last night from five bullet wounds received when gunmen invaded district administrative headquarters at Jenin.

He had several blood transfusions in Haifa hospital where he was taken after the attack. Another British official of the same rank, Lewis Yelland Andrews, was killed at Nazareth last September.

An Arab hunchback was held today on charges of assassinating Moffatt.

Authorities said the Arab was captured while attempting to escape after the shooting.

Police also were searching for a band which kidnapped Hanna Khoury, a Greek monk, and his brother. They were abducted yesterday from St. Peter's convent at Caesarea, by a band which surrounded the village, bound the two captives and fled on horseback. Police said they believed the men were kidnapped because they refused to support anti-government activities.

THE WEATHER

VICTORIA 8 a.m. today—A depression, centered southeast of Vancouver Island, appears to be approaching the Oregon coast. The weather has been fine and warm on the north coast and throughout the British Columbia interior. It continues cool in the prairie provinces.

British Lumber Group on Coast

Strictly Business Mission, Says W. A. McAdam At Vancouver

VANCOUVER (CP) — Thirty-six representatives of the British lumber trade, accompanied by W. A. McAdam, acting Agent General for British Columbia in London, and J. C. Berto, British Columbia's assistant lumber commissioner in the United Kingdom, arrived today from eastern Canada. They were welcomed by Mayor George C. Miller, representatives of the British Columbia government and prominent lumbermen.

As guests of the provincial government, the visitors will spend the next 10 days in the lower mainland and on Vancouver Island, acquainting themselves at first hand with the province's lumber industry.

Mr. McAdam explained to interviewers that the trip of the British timbermen, representing nearly all phases of the industry in the British Isles, was "strictly a business one." Four French buyers are also in the group.

"The delegation represents, I think, one of the largest number of industrialists from overseas that has ever visited British Columbia in one body," McAdam said.

"I am extremely hopeful that this personal contact, established between actual importers and our own timbermen, will lead to increased business."
(Turn to Page 2, Col. 1)

Plan Storage of Wheat Under Water

GENEVA (AP)—A member of the Swiss federal parliament has proposed to the national defence committee a plan to store reserves of wheat and gasoline at the bottom of Swiss lakes to remove them from the danger of destruction by enemy attacks. He urged the committee to build huge tanks which would be filled with the needed supplies, then sunk in the lakes.

TOLL OF JAPANESE PLANE CRASH 28

TOKIO (AP) — The death toll in Tokyo's worst aviation disaster grew to 28 today with 130 persons still in hospital, 20 of them in a critical condition.

Fourteen more persons died of burns as the result of a collision yesterday between a transport plane and a training plane which plunged into an iron foundry, setting the plant afire with exploding gasoline.

At the time, 10 workmen were burned to death, and four men in the planes were killed, while nearly 150 were injured.

B.C. LUMBER ESTABLISHED

Trade With Britain Is No Longer in Experimental Stage, Says E. P. Tetsall

VANCOUVER (CP) — British Columbia should not worry about the possibility of losing the British market for her lumber as the result of tariff revision, according to E. P. Tetsall, former president of the British Timber Federation and member of a party of British timbermen who arrived here today.

"If there is revision at all," said Mr. Tetsall, "it is pretty certain to be a reduction in the preference given to your lumber or at least elevation of United States lumber to a parity with yours."

"But such an eventuality should not alarm you. British Columbia lumber has established itself in the British market. Our trade with you is no longer in the experimental stage."

"The British buyers, architects and builders are already convinced of the high quality of British Columbia lumber and of the ability of your mills and shipping companies to give satisfactory service."

"Now that the trade has been established on a solid footing, it will require more than a tariff adjustment to upset it."

Swing Sessions Reach Victoria

Local "Jams Are Really Hot" Says Visitor After Watching "Jitterbugs"

The jitterbugs have come to Victoria, and in the language of "the swing music" to which they are devoted, are "going to town."

Though "R.W.R." of the Medford, Ore. Mail Tribune and other writers speak of Victoria as quaint, old fashioned and the place to visit if you wish to return to the "good old days," the parties held by Victoria "swing jammers" indicate that tourists who come to Victoria with preconceived ideas see only what they expected to see of Victoria on parade.

Waitresses whom H. E. Jamison of the Seattle Star found demurely wearing white cotton stockings, and other workers whose politeness when meeting tourists during business hours does much to win Victoria praise for old-world courtesy and charm, may be discovered later in the evening "swinging it hard and heavy."

Victoria youth, despite their publicity bureau background, have adopted the swing craze as earnestly as any of the youth of the United States as featured in newspaper articles, picture magazines and movies.

They are even improving on some of the rhythms borrowed from the other side of the line.

"I've seen 'jam sessions' in Vancouver, but never anything so hot and hotcha as this," said Fred Murphy of Vancouver, after visiting a jam session in the Chamber of Commerce dance hall last night. "Boy, do those licks hit the high spots."

"SEND ME, O SEND ME" The Times cameraman accompanied Mr. Murphy and put on his fastest stop to get the "hep cats" in action.

It takes the vernacular of swing to describe a swing party.
(Turn to Page 2, Col. 7)

JUICHANG TAKEN IN GREAT HEAT

SHANGHAI (AP) — Japanese claimed today that capture of the walled city of Juichang, a major objective in the drive towards Hankow, had put the invaders in a position to outflank 30 Chinese divisions.

The victory, first notable Japanese advance since their occupation July 26 of Kiukiang, a Yangtze River port 21 miles to the east, occurred in sweltering heat of 140 degrees.

Chinese military sources reported 30 Japanese warships steamed along Poyang Lake, between Kiukiang and Nanchang, and heavily bombarded Chinese shore positions near Wuchang on the west bank. This was expected to inaugurate attempted Japanese landings about 40 miles north of Nanchang.

HITTING THE HIGH SPOTS

(Top picture) Two alligators "give" to the undefinable rhythmic exhilaration of the jamsters.

"SEND ME, O SEND ME" (Centre picture) Drummer Heaton goes "out of the world" on a rug-cutting chorus of "Flat-foot Floogie," as the jitterbug artists jive for more.

"IT'S HOME COOKING IN THE BAG," in the words of swingdom, as trumpeter Al Stevens (bottom picture) "tears one off to a fare-thee-well as licks swing in jamming rhythm."

Hundred Thousand At Jitter Party

CHICAGO — With more than 100,000 jitterbugs filling every inch of dancing space in Soldier Field at a mammoth free swing session, one couple shagged it on top of an automobile, to the great delight of the crowd. Fifty-seven bands played in the amateur competition. Five hundred policemen were needed to handle the crowd.

Germany Drills Colonial Officials

BERLIN (AP) — Confident that in time she will regain her war-lost colonies, Germany will open a school October 15 to drill Nazi officials in colonial administration. The training includes a comprehensive course in National Socialist philosophy and racial theory.

NEW TREATY URGED WITH WEST INDIES

PORT OF SPAIN, Trinidad (CP)—A resolution urging negotiation of a new Canada-West Indies trade treaty was on the agenda of the sixth congress of Associated West Indies Chambers of Commerce, opened today by Governor Sir Hubert Winthrop Young.

The resolution, one of 23 before the congress, urged the proposed treaty be negotiated by representatives of the West Indian governments and not by the Colonial Office. Other resolutions ranged in scope from one urging immediate aid from the British government for the sugar industry to that advocating increased advertising of West Indian rum.

Kelowna Decorated to Welcome B.C. Liberals

Wife of Italian Envoy Wounded

LONDON (AP)—Reuters News Agency said today the wife of the Italian ambassador to insurgent Spain was wounded Monday night when a police patrol at San Sebastian, Spain, fired on the automobile in which the envoy and his wife were riding.

(Roberto Cantalupo presented his credentials as Italy's first envoy to the insurgent regime on March 1, 1937).

Reuters said police commanded the automobile to halt and opened fire, not recognizing it was a diplomatic car, when the chauffeur ignored the order.

The ambassador was said to have been unhurt.

Charge Poison Gas Used

Chinese Battalions Wiped Out in Kiangsi, Says Ambassador

LONDON (AP) — China charged Japan today with "creating a grave situation" by use of poison gas.

In a communication to the British Foreign Office, Quo Tai-chi, Chinese ambassador to Great Britain, declared all but four members of two Chinese battalions were killed last Monday when Japanese used poison gas to stop a Chinese counterattack in Northern Kiangsi Province.

"Recourse to such methods of warfare," Quo declared, "are in violation of existing international conventions to which Japan is a signatory."

Back in Canada

QUEBEC (CP)—Lady Tweedsmuir returned today to Canada aboard the liner Empress of Britain after a four-month visit in England.

Tokio Justifies Action

Denying Machine-gunning of Airliner Passengers, Japanese Navy Spokesman Says Noncombatant Planes Pass Through War Zones At Own Risk

TOKIO (CP Hava)—Japanese denied today did not open fire on the "mystery plane" which they forced down between Macao and Canton on Wednesday. Rear-Admiral Kiyoshi Noda, spokesman for the Japanese Naval Office, declared today.

All the occupants of the plane escaped, he contended.

Admiral Noda said Japanese forced the plane to alight but justified their action on the grounds that international aerial war regulations provide non-combatant planes pass through war zones at their own risk.

Admiral Noda denied Chinese claims that Japanese "deliberately attacked" the machine and forced it down with the intent to kill Dr. Sun Fo, president of the Chinese Legislative Council. (Advances from Hankow revealed Dr. Sun Fo was scheduled to board the plane but did not do so).

HONGKONG (AP)—Airliner officials said tonight they believed at least 12 persons died inside the Chinese-American airliner which was forced down and machine-gunned by Japanese warplanes yesterday between Canton and Macao.

A spokesman for the China National Aviation Corporation, the owners, said the line's reports indicated the plane, riddled by machine-gun bullets, was entirely submerged in the small (Turn to Page 2, Col. 8)

Prairie Wheat Crop 343,000,000 Bushels

WINNIPEG (CP) — The prairie wheat crop today was estimated at 343,000,000 bushels by the Sanford Evans statistical service's weekly market news report, based on telegraphic report from 356 points in Manitoba, Saskatchewan and Alberta.

The crop report places probable production in Manitoba at 54,000,000 bushels, Saskatchewan 151,000,000 and Alberta 138,000,000 bushels.

The 343,000,000 bushels would be approximately 32,000,000 bushels more than the 10-year average for the three provinces and exceed last year's production by 184,000,000 bushels.

Two Injured By Runaway Barrel

Pitch Container Plummets Nine Stories

MONTREAL (CP) — A 300-pound barrel of pitch plummeted nine stories through stairway landings in the Wilder Building on Bleury Street today, leaving two persons injured and throwing occupants of the office building into a panic.

Workmen tarring the roof lugged the barrel from the elevator at the ninth floor up the stairs towards the roof. The heavy barrel escaped from them and tumbled down the stairs.

The pitch barrel plunged through landing after landing on its noisy career to the basement. As it burst through each floor it set off sprinkler systems, drenching stairway and corridors.

Fireman Jack Cloran, repairing a sprinkler valve on the sixth floor, was narrowly missed by the barrel. It broke away the landing he was standing on and he fell five stories in its wake. Cloran was rushed to hospital with serious injuries to head, back, arms and legs.

The other victim was Harry Waldman, 35, partner in the Waldman Dress Company with offices in the building. He was out of the building when the accident happened, but rushed in to see if his premises had been damaged. Running up the stairs, he dropped through the yawning hole in the first floor and was badly bruised. Waldman was allowed to go home after treatment at hospital.

The crashing pitch barrel, the sudden action of the sprinkler system, caused a general panic among the hundreds of people employed in the building, largely devoted to garment trade factories. Police and firemen quieted the terrified girl workers.

Demand French Assembly Meet

Fear Expressed Over Germany's Mobilization of 2,000,000 Men

PARIS (AP) — A Socialist party demand for a special session of parliament today closely followed accounts quoting Premier Edouard Daladier as declaring "Germany's mobilization of 2,000,000 men" had confronted him with "a situation no government chief has known since 1914."

Newspapers with strong political connections said the Premier's declaration was made at last night's closed meeting of the executive committee of his own Radical-Socialist Party, at conclusion of which the committee voted him "complete confidence."

Today the executive committee of the Socialist Party, largest in the Chamber of Deputies, instructed its delegates to the National Council of the People's Front to insist Communists and Radical-Socialists join in the demand for an immediate session of parliament.

Socialists, Communists and Radical-Socialists are the major elements of the People's Front of Leftist parties, but Socialists and Communists are not represented in the present cabinet. Parliament is in recess, not due to meet until November.

STEER TAKES DIVE

INDIANAPOLIS (AP)—A big Texas steer, yearning for the open range, dived from a seventh story window of a packing house into the White River.

The steer swam the river, trotted through town and put on several impromptu bull fights with bystanders who played cowboy and gave chase. Finally two policemen shot and killed the animal.

Hon. Ian Mackenzie Pledges Co-operation to Pattullo

JOBLESS ISSUE

KELOWNA (CP)—Four hundred delegates to the first British Columbia Liberal convention since October, 1932, got down to business today in this flag-bedecked and posteried interior town.

Dr. W. J. Knox of Kelowna, president of the British Columbia Liberal Association, was in the chair at the morning session opened.

H. G. T. Perry, member of the Legislature for Fort George riding, was elected chairman of the resolutions committee.

Speaking briefly at the opening session Hon. Ian Mackenzie told Premier Pattullo that as far as he was concerned British Columbia could rest assured of the fullest co-operation and assistance from the Dominion Government.

The National Defence Minister received prolonged applause when he said he knew every provincial premier in Canada and that he was proud to say no man in Canada exceeded in ability, integrity and desire for service to the public "British Columbia's own Duff Pattullo."

ABLE CABINET

"With Mr. Pattullo British Columbia has a very able cabinet."

"Even so, we (Dominion Government) have not always been able to co-operate with British Columbia to the fullest extent we might wish," said Mr. Mackenzie. "But, I promise your prime minister so far as I am concerned, that the keynote of our relations will be one of assistance and co-operation with British Columbia."

MAYOR'S WELCOME

Mayor O. L. Jones welcomed delegates to his city. Any government in power in these times was under a constant "searchlight" of criticism by press and radio, he said. He felt in the gathering before him there was represented the great thing Liberalism stood for—democracy.

"It was no use to grumble about the cabinet," he said. The general membership of the party had "just as good a government as it deserves." Responsibility of selecting legislative members rested with the members at large.

He appealed to delegates from coast districts to purchase Okanagan products in reciprocity for large Okanagan purchases in Vancouver and other cities. Then he handed a large "key to the city" to Mr. Pattullo, who commended Mayor Jones' appeal.

Delegates accepted as read the 67 typed pages of minutes of the last convention.

The Kelowna Liberal special train pulled in at the Canadian National depot here at 8:45, an hour and a quarter before the convention was scheduled to begin in the United Church Hall.

In 15 minutes 150-odd delegates who came aboard the train were driven the mile to town and breakfast.

There was little talk of convention business on the train last night so far as the average delegate was concerned. What there was seemed to indicate health insurance and unemployment might prove major convention issues.

Fresh in the minds of delegates was last night's Vancouver demonstration by single unemployed, who crowded into the depot as delegates boarded the train, singing, shouting and holding placards like: "Government discrimination must cease."

"Single, jobless, homeless," "We want work."

"Take it from me, unemployment has to come up and we have to argue it out," one Victoria delegate said.

Delegates seemed to think, too, that health insurance would have a prominent place at the convention. Electors at the June 1 general election last year approved a "comprehensive health insurance scheme progressively applied."

Hoppers in Ontario

BELLEVEILLE, Ont. (CP)—Seagulls and other scavenger birds have gorged themselves to the full on grasshoppers here during the week. The hoppers have been piled inches deep along the lakeshore, washed in from the centre of Lake Ontario.

BRITISH LUMBER GROUP ON COAST

(Continued from Page 1)

"The idea of this trip is to give the party a complete view of our industry from logging camp to sawmill, and we believe that this experience will enable each member to render better service to his United Kingdom customers by making available to them the knowledge which he has acquired."

"Such was the idea of the government when the trip was authorized. Only bona fide members of the timber trade made the journey."

"Our party is a thoroughly representative one and when you come to consider that though guests of the British Columbia government while in the province, each member has paid for his own transportation, is giving five weeks of his time and is traveling 6,000 miles to enlarge his experience, it will be seen that the trip is regarded as a serious business proposition." McAdam continued.

W. Floyd Craig, British Columbia commissioner of trade and commerce, and L. R. Andrews, in charge of market extension work for British Columbia Lumber and Shingle Manufacturers' Association, met the party at Jasper, Alta., and returned to Vancouver with them.

The guests were scheduled to visit the Fraser River sawmill of the Canadian White Pine Company this afternoon.

A prominent member of the party was E. P. Tetsall, past president of the Timber Trade Federation of the United Kingdom. Others were C. E. Fiske, director of Boulton and Paul Ltd., of Norwich, large British company manufacturing prefabricated homes; C. M. O'Kell, chairman of the Irish Timbers Importers' Association and J. W. Craig, president of the Liverpool Timber Trade Association.

The party will move to Victoria Sunday and the following day they will attend a reception at Government House. The next

Hitler Gives Military Display

Nazi War Machine Viewed by Regent Of Hungary

BERLIN (AP)—Germany followed up a guaranty of the integrity of Hungarian frontier today with its greatest post-war military display before Admiral Nicholas Horthy, Regent of Hungary.

Chancellor Hitler showed Horthy in the two-hour parade the old Prussian spirit which the Hungarian admiral learned to know during the Great War still lived. He also showed the guest that Germany has one of the most modern armies in the world from the viewpoint of technical equipment.

In the display were 16-inch howitzers, the biggest ever seen in Germany. Modern companion pieces to the "Big Berthas" of war fame, appearing to be 30 feet long and of 10-inch calibre, also were shown.

Horses were used in the parade for drawing even heavy cannon, although many guns were motor-driven. Detachments of bicycle and motorcycle troops passed the reviewers.

Newspapers said the display was intended to give "our Hungarian friends an indelible impression of our army and our air force, thus after the days at Kiel, on the sea, and at Heligoland, rounding out the picture of our armed forces."

Admiral Horthy saw a parade of the German naval might at Kiel Monday and fortifications on the North Sea island of Heligoland Tuesday.

5 NOW HELD ON \$25,000 BAIL

OLYMPIA, Wash. (AP)—A society physician, a county coroner's deputy, a former town marshal, a relative of a prominent Tacoma family and a taxicab driver were held in \$25,000 bail each today for the "torture abduction" of former coastguard Lieut. Irving Baker.

The fifth man was arrested shortly before midnight last night and accused of harboring two of the four Prosecutor Smith Troy charged kidnapped Baker and attempted to emaculate him because of intimacies the society physician said Baker had with the doctor's wife.

Those held were: Dr. K. W. Berry, 54, five-times married, named by Troy as leader of the group; Harold Schars, Thurston County coroner's deputy and close friend of Berry, arrested last night on the harboring charge; William K. McAlon, 50, former Montezano, Wash. town marshal; Robert Smith, 32, related to a prominent Tacoma dairyman, and James Reddick, 27, taxicab driver who works for Schars and who, the state charges, drove Berry's car the night of the Baker abduction.

AYLMER MAUDE DIED TODAY

Noted Author Arranged Migration of Doukhobors To Canada

LONDON (CP)—Aylmer Maude, 80, author and intimate friend of Count Leo Tolstoy, Russian novelist, died at his Chelmsford home today. Mr. Maude helped to arrange the emigration to Canada of thousands of Doukhobors.

He went to Moscow at the age of 16 and engaged in tutorial work there. His activities in connection with the Doukhobor migration followed his return to England in 1887.

He gained his greatest distinction as Tolstoy's translator. In 1927 Mr. Maude completed his 21-volume centenary edition of Tolstoy's works.

Three Drowned in Speedboat Upset

FLIN FLON, Man. (CP)—Three youthful residents of Flin Flon last night drowned and a fourth was rescued in an unconscious condition from Schist Lake when a speedboat upset on the way to a lakeside wiener roast.

The dead: Bert Hyman, 22, only son of Mr. and Mrs. Oscar Hyman, formerly of The Pas; Miss Helen Beda, 18, only daughter of Mr. and Mrs. John Beda, formerly of The Pas; and Miss Josephine Persian, 27, daughter of Mr. and Mrs. Sydney Persian, Bowman, Man.

The speedboat, owned by Oscar Hyman, was carrying them to a point south of the Channing air harbor when it capsized.

William McBratney, 23, son of Mr. and Mrs. Howard McBratney, Flin Flon, was the sole survivor. He was dragged from the water unconscious.

DEAD WOMAN'S EYES STILL SEE

The benevolence of the late Mrs. Margaret Carr, top, San Francisco woman who willed her eyes to science, brought sight to Rev. U. E. Harding, lower photo, Portland, Ore., minister, and to a Sacramento, Calif., pianist. Harding's sight was partially restored when a surgeon transplanted into his eye tissues from a cornea taken from Mrs. Carr's eye at death and placed in refrigeration. He had been blind 43 years.

Rinfret Goes To Europe

Secretary of State Taking Up Confiscation Claims in Hungary

OTTAWA (CP)—Secretary of State Rinfret, who sails tomorrow for Europe, announced today his trip had three purposes. These are:

To meet members of the Hungarian government to take steps toward a final settlement of claims arising from confiscation by Canada and Hungary of alien property during the Great War. Reorganization of the Canadian archives branch in Paris.

Discussion of the copyright problem with European governments. During the war Canada confiscated property in Canada of nonresident Hungarians and Hungary confiscated property in Hungary of Canadians. Final settlement of claims has been effected with other countries by setting one balance against another under treaties arrived at after the war.

"It seems necessary, as my predecessors have done with other countries, to establish beyond all doubt the respective amounts of these claims and definitely to determine this balance," said Mr. Rinfret.

Death of Dr. H. B. Biggar, archivist in London, who was in charge of the Paris office, has made changes necessary.

"Our Paris branch will be made independent and a bureau of historical information which has been contemplated for some time will be established," said Mr. Rinfret. "I expect to discuss this project with a group of distinguished archivists at present employed by us in Paris."

"I shall also take advantage of my trip to discuss the copyright problem with European representatives," said the minister. "Canada is an adherent to the Berne International Convention, revised at Rome in 1927. We strongly desire to maintain this adherence."

"On the other hand the special situation of our authors in America and the fact that the United States, our principal market, have adopted a distinctive legislation in this matter, have induced the Canadian Parliament to adopt amendments to our Copyright Act which might lead us to infringe our international agreements. I wish to acquaint myself on the spot with the application of certain measures that have occasioned frequent controversies."

Earthquakes travel at a rate of between 470 and 530 feet a second.

Lapointe to Sail For Geneva

Delay Judicial and Prison Appointments Until His Return

OTTAWA (CP)—No judicial or penitentiary branch appointments will be made until October at the earliest, it was learned today. Rt. Hon. Ernest Lapointe, Minister of Justice, will sail Saturday from Quebec for Geneva as head of Canada's delegation to the League of Nations September meeting. He will return the first week in October.

Meanwhile officials of the department are making an analysis of the report of the Archambault Royal Commission on the penal system to prepare a basis for reorganization of the branch.

When the report was tabled in the session of Parliament a bill to effect one of its recommendations, that of replacing the superintendent of penitentiaries by a three-man commission, was blocked in the Senate. Since then Superintendent Ormond has been retired and Chief Inspector G. L. Sauvage made acting superintendent.

Appointment of the commission may now await another session of Parliament, but a working basis for reorganization will have been prepared in advance. Simplification of the rules of penal administration will be one of the objectives in the reorganization plan.

PRELATE WARNS OF TRUTH CURB

Suppression of Knowledge Now Worst in Several Hundred Years

CAMBRIDGE, Eng.—Addressing the gathering of the British Association for the Advancement of Science, the fourth ranking dignitary of the Church of England, warned scientists here that the world is now experiencing the worst period of suppression of scientific knowledge and truth in several hundred years.

Scientists should participate in the social application of their discoveries, the Rt. Rev. C. F. Garbett, Bishop of Winchester, declared in urging upon them the necessity for defending freedom and tolerance, two of the cornerstones upon which scientific advance is based.

Scientists attending the British Association meetings also saw a successful demonstration of an automobile without a clutch.

Designed by Prof. F. C. Lea, engineer of Sheffield University, the car uses a mechanism called a torque converter to transmit power from engine to wheels. The engine operates a centrifugal oil pump, speed of which is controlled by the accelerator which varies the amount of oil delivered to a turbine attached to the drive shaft.

Should the car prove commercially feasible its introduction would mark one of the greatest changes in the automobile in the last 10 years.

Formal Request For Fruit Probe

KELOWNA (CP)—A committee of the British Columbia Fruit Growers' Association met Attorney-General Gordon Wismer and Hon. K. C. Macdonald, provincial Minister of Agriculture, here yesterday.

After the meeting, it was announced the committee had been asked to forward a formal request to the Attorney-General for an investigation into charges that a combine controlling shipping of western Canada fruit and vegetables existed.

The Attorney-General was said to have informed the committee that the government would carefully consider such a request and decide whether an investigation should be held by Dominion and provincial authorities.

Nanaimo Engagement

NANAIMO, B.C. (CP)—The engagement has been announced here of J. P. Tully, member of the staff of the Pacific Biological Station at Departure Bay. On September 17 Mr. Tully will be married to Miss Ethel Lorraine Hamilton, younger daughter of Mrs. James Hamilton of Winnipeg, in Winnipeg.

For the last three years Mr. Tully has been working with the Royal Canadian Navy charting ocean current surveys. Prior to this Mr. Tully worked on oyster culture and food chemistry.

Active in sports Mr. Tully was a former member of the Winnipeg Toller, famous basketball team, former senior champions of Canada. In Nanaimo he has been active engaged in basketball and track and field operations.

CZECH PROBLEM ACUTE STAGE

(Continued from Page 1)

resulting from Mr. Ashton-Gwatkin's sudden dash back to London. They included predictions of a whole new approach to the Czech problem.

The attitude of the Chamberlain government continues to be that Lord Runciman's task is not impossible if a spirit of goodwill and conciliation can be created on both sides of the dispute. There must be broad and comprehensive concessions by the Prague government and no impossible demands by the Sudeten Germans.

Lord Runciman's task, if it is to be successful, cannot be hurried and this was pointed to as the reason for no tangible results yet from his mediation.

Soon after the conference Lord Halifax left for his country home in Yorkshire, to remain till Monday.

THREE POINTS

Three possible developments were reported at today's meeting:

1. Lord Runciman may be working out his own peace plan.

2. The British government, possibly acting with other states, may make a new effort to lessen the general European tension resulting from the dispute between the Sudeten Germans and the Czechoslovak government.

3. It was felt in British ministerial circles the intensive German press campaign against Czechoslovakia adds an unnecessary complication and that some steps may be taken to modify it.

It has been suggested in London Lord Runciman may make a personal appeal to Chancellor Hitler with the object of stopping the press campaign which he feels is undermining his efforts.

The Daily Mail (independent) suggested Great Britain had decided to give France "unmistakable assurance" of support in France were called upon to fulfill treaty obligations to Czechoslovakia. The French government is obligated to aid the little republic if it is attacked, but Britain has made no such commitment.

The Czechoslovak minority troubles centre about demands of the Nazi-endorsed Sudeten German party for autonomy in local government.

"Britain will in the next few days declare afresh her attitude towards events in Europe," said the Daily Mail. "The declaration will take the form of an unmistakable assurance to France that Britain will support her should she become involved in any conflict as a result of her fulfilling her treaty obligations to Czechoslovakia."

"There is no reason, however, to despair of an ultimate agreement in Central Europe. The British government has wisely made clear its intention to refrain from direct contact with the Central European quarrel."

The News Chronicle (Liberal) urged the government to realize that the "bluffer and bully" will pay heed if Britain puts her foot down.

"If the British government allow it to be definitely known in Berlin that should Czechoslovakia be attacked Britain will stand firmly behind France, the murder of the Czechoslovak democracy will not take place."

SWING SESSIONS REACH VICTORIA

(Continued from Page 1)

With the chant of the jitterbugs crying "Send me Bugs, O send me," Roy "Bugs" Heaton propelled Al Stevens' Cats through some terrific swingcapitation.

The alligators were there—the stuff was there—and it was plenty mellow.

The gut-bucket jive music was interspersed with psychopathic yells of "yea-man," "beat it out, son" and "play it grandma—play it" from the ickies, gates and rag-cutting jam enthusiasts who crowded the floor.

When the boys went out of this world on such well-known pieces as "Dinah," "Sweet Sue" and "Flat Foot Floogie," the joint was jumping.

Al Stevens playing a trumpet solo is something to watch. Tilted his horn sharply upward, he lets go with that old Gabriel stuff to a fare-thee-well. Bill Johnston then steps into the spot and tears off an alto solo that is really home cooking in the bag. Bunk McEwan, arranger and mahogany expert, busts his conk on the horizontal harp in pleasing the customers. Bert Humphries rides his tenor sax really in the groove. Both Johnston and Humphries double on the gobs tick.

"BUGS ON THE SUITCASE" The percussion section of the band is composed of "Bugs" Heaton on the suitcase, Norm Bentley on the belly fiddle and Tommy Johnston on the doghouse and woodpile. These boys beat out real clean rhythm and are by no means out of the lime-light.

"Bugs" Heaton, the Gene Krupa of the Victoria swing salons, works himself into a frenzy as the crowd calls for more. Rhythm is his business. He can drag it out of anything within reach.

MAN DROWNED AT COURTENAY

COURTENAY (CP)—The body of an unidentified man today was found in the Tsoolum River, about a mile from here. British Columbia police said they believed the body had been in the water for two or three days.

Police said the body was that of a man about 30 years of age, 5 feet 8½ inches in height and weighing about 170 pounds. He wore blue overalls, a brown shirt and black oxford shoes.

No marks of violence were found on the man, believed to have been drowned.

Police said no had been reported missing in the vicinity.

TOKIO JUSTIFIES ACTION

(Continued from Page 1)

river on which the American pilot, H. L. Woods, of Winfield, Kas., set it down.

Only three survivors who reached Macao were definitely accounted for tonight—Woods, the radio operator, Loe Loh, and a passenger, C. N. Lou—although earlier reports said two wounded Chinese passengers were in a hospital at Shekhi, north of Macao. Passenger Lou also was wounded.

Woods, who reached Macao aboard a sampan and was then brought to Hongkong aboard the United States gunboat Mindanao, said he believed all the missing were killed or wounded in the machine-gunning of the plane. Moreover, he reported he heard bomb explosions while lying in a semiconscious condition on the river bank. Trying to swim ashore he was caught in the current and reached the bank exhausted.

An airline official said it was believed there were only 17 persons aboard the plane, which left Hongkong yesterday for Chungking, one of China's temporary capitals. Some accounts said there were 19. A revised list showed 13 passengers, including three women and two children and a crew of four. All but Woods were Chinese.

LONDON (CP via Havas)—Imperial Airways officials declared today they had not been officially informed of the Japanese spokesman's warning at Shanghai that commercial airlines flying over China and attempting to escape Japanese aerial units will expose themselves to attack.

Officials said the company's machines in the Far East do not fly over Chinese territory, reaching Hongkong from Annam by flying along the coastline.

All Over 60 to Get Pensions

Social Security Bill Now Before New Zealand Parliament

WELLINGTON (CP Reuters)—Pensions for all persons at the age of 60 are provided under the New Zealand government's Social Security Bill, now before Parliament.

It provides that ultimately all persons at 60 shall receive a pension of 30 shillings (\$7.50) weekly. Other advantages proposed include disablement, sickness and unemployment benefit. The scheme also embraces free hospital and medical treatment for all.

A special section provides for maternity attention and maintenance in hospital for 14 days. A married couple, both aged 60 or more, will receive \$3 (\$15). They may also receive \$1 each from other sources. If their income more than pensions exceeds \$1, their joint pension will be reduced so the total income does not exceed \$4 weekly.

A married person whose spouse is less than 60 years of age may receive a pension of 30 shillings weekly, provided the pensioner's other income does not exceed 50 shillings.

The scheme applies to all persons more than 21 years old. It will be financed by an annual registration fee of 11 and a charge of a shilling in the pound on all salaries and wages.

Paralysis Cases

VANCOUVER (CP)—Dr. J. W. McIntosh said today a small boy living in Point Grey residential district was suffering from infantile paralysis.

A second case was under treatment in hospital here. He was a boy from Pender Harbor who had been in an "iron lung," mechanical breathing device, for several weeks.

A nine-year-old Vancouver girl who contracted the disease at Selman Park, B.C., died here Monday.

More Production In Turner Valley

CALGARY (CP)—A conservation order to be issued by the newly-formed Petroleum and Natural Gas Conservation Board late this week, will permit the production of approximately 27,000 barrels of crude oil daily in Turner Valley according to a statement issued by the Alberta Petroleum Association signed by R. A. Brown, president.

This production, it is said, will be considerably more than that allowed in the past. In June, the last month for which official production figures are available, the field produced approximately 516,000 barrels of oil or 17,200 barrels a day.

Wells which require more than 3,000 cubic feet of gas to lift one barrel of crude oil to the surface will have their output cut under the gas conservation order. On the other hand, wells producing crude oil to a very low gas oil ratio will have their output increased.

Youth Makes Peace Pledge

No Participation By Congress Members In War of Aggression

By JOHN H. WIGGINS

POUGHKEEPSIE, N.Y.—Youths of 47 nations, including Canada, still as enthusiastic as when their second world congress convened, culminated eight days and nights of conferences with a pledge never to participate in a war of aggression.

Laborers of the conclave, carried on by four commissions, were presented in a 500-word statement condemning war and asserting "war is not inevitable if the law between nations can be upheld and justice for the people established in accordance with peaceful and democratic will of the peoples in each nation."

Italy and Germany were the only major nations not represented at the Youth Congress.

The peace pledge, commemorating the 10th anniversary of the Kellogg-Briand peace pact, was signed by each delegate as a final gesture of the congress.

"We pledge ourselves," the delegates agreed, "to do all in our power to guarantee that the youth of our countries never participate in any war of aggression against any other states."

"We agree to bring pressure to bear, whenever the circumstances arise, upon our respective authorities to take the necessary concerted action to prevent aggression and to bring it to an end, to give effective assistance to the victims of treaty violation and to refrain from participating in any aggression, whether in the form of supply of essential war material or of financial aid."

The signers were announced as representing youth organizations of Canada, Great Britain, Australia, Belgium, Argentina, Chile, China, Columbia, Costa Rica, Cuba, Czechoslovakia, Denmark, Ecuador, Elre, Ethiopia, Finland, France, Haiti, Holland, India, Indonesia, Korea, Mexico, New Zealand, Liberia, Nicaragua, Lithuania, Norway, Palestine, Panama, Paraguay, Peru, Puerto Rico, Roumania, San Salvador, South Africa, Poland, the Gold Coast of West Africa, Spain, Sweden, Syria, Uganda, Uruguay, the United States, the British West Indies and Yugoslavia.

Delegates who did not affix their signatures to the pact, either because they were absent at the closing ceremonies or because they said they were not authorized to take such action, included those from Japan, Santo Domingo, Bolivia, Bulgaria and the Philippines.

Dope Raid Nets 2

SAN FRANCISCO (AP)—A complaint charging conspiracy and possession of narcotics was filed Tuesday with U.S. Commissioner E. E. Williams against William Ingram, 34, and his wife, Ann, 33.

The Ingrams were arrested in a raid on an apartment in which federal agents said they confiscated 70 ounces of narcotics wrapped in one-ounce cellophane bags and concealed in a compartment in a refrigerator.

A complaint also was filed against Joseph Woods, 36, in connection with the case. Joseph Manning, supervisor of the Narcotic Bureau here, said Woods had not been arrested.

Ingram and his wife were described by Manning as "two of the principal narcotic operators on this coast, both wholesale and retail." Manning said he was hoping for more arrests.

SHOWING WHAT AN AUTOMOBILE CAN DO TO A TRAIN—This unusual wreck resulted when a train struck a car near Huntington, Ind. Although the driver of the car jumped to safety, all six coaches of the train were derailed and the engineer and fireman killed. None of the 150 passengers were seriously hurt. This picture shows a crowd of the curious around the wrecked train soon after the accident.

Union Movement In Agriculture

Progress Made, Though Laborious, Says Geneva Delegate

ST. ANNE DE BELLEVUE, Que.

(CP)—While progress is laborious, the trade union movement is making advances in the field of agriculture. F. W. Von Bulow of the International Labor Office at Geneva asserted here today to the International Conference of Agricultural Economists.

"The system of collective bargaining in agriculture is spreading further," Von Bulow declared before more than 400 delegates representing 19 nations at the seven-day convention.

The European expert said it might be taken as "significant" that widespread agreement existed now on the principle that there should be collective bargaining, or legislation, on farm working conditions. Previously, it had been up to the individual farms to settle this point.

"During recent years," he added, "legislation on hours of work, minimum wage regulation and holidays with pay is to be noted in a considerable number of countries. Systems of social insurance and family allowances are also gaining ground."

But even with these developments, Von Bulow found conditions of work for farm labor "far from satisfactory." As a "striking example," he declared even in those countries outstripping others in the way of social legislation for the farm, the average agricultural worker's wage was still "only three-fifths of what is considered by experts to be a reasonable minimum wage for labor in general."

J. F. Duncan, Scottish delegate, also speaking on farm labor, declared it was "difficult" to see how reasonable social standards for farm help could be established under the present structure.

"If the standards are to be raised sufficiently to remove the gross disparity between those of industrial and land workers, then the productivity of labor will have to be greatly increased," he asserted.

FAIRBRIDGE FARM SCENE OF PICNIC

The Fairbridge Farm School was the scene of activity yesterday afternoon when the Victoria branch of the Kipling Society held their annual picnic at that site. Approximately 40 members and their friends made up the group.

The children of the school were holding their annual water sports contests and the picnicers spent the afternoon as spectators of the sports and in being shown around the school.

Following light refreshments on the picnic grounds, Col. H. T. Logan, director of the school, addressed the visitors, telling of the work and the aims of the institution.

The committee in charge of arrangements of the outing included: A. E. G. Cornwell, chairman; T. Simmons, P. Oliver and Mrs. M. Neil.

Abbotsford Pioneer

ABBOTSFORD, B.C. (CP)—John J. McPhee, 78-year-old pioneer merchant in this Fraser Valley district, and former immigration office at Huntington port of entry, died Tuesday. Mrs. J. N. Weiverton of Kimberley, B.C., and Mrs. J. C. Dupdo of Victoria are daughters.

Gangland Slaying

CHICAGO (AP)—Paul Battaglia was listed today as the 10th victim of gangland vengeance in the last two months. The 44-year-old member of the 42 of prohibition days was found slain last night in a West Side alley. He probably was killed in a car and dumped out. Gangsters killed his brother seven years ago.

Will Make Test In Cell Block

Investigators at Work in Pennsylvania Prison

PHILADELPHIA (AP)—Pennsylvania prison investigators said today they would "turn on the heat" and enter the stuffy cells where four hunger-striking convicts suffocated, to learn whether the punishment cell block was a "deliberately planned massacre."

Charles I. Engart, secretary of welfare directing the state's investigation of the deaths in the Philadelphia County Prison Monday, disclosed the men from his office and two state policemen would make the test.

He said they would subject themselves to the same conditions the prisoners faced in the heated cells termed as horrible as the Black Hole of Calcutta.

He said he wanted to know if large radiators in the cell block "were really needed just to heat the building in the winter, or if there was something else in mind."

With two guards already held as material witnesses in connection with the deaths, Hersch said he had warrants for the arrest of four other persons—two of them prison officials—and declared additional arrests might result in a breakdown of the prison administration unless the entire staff was replaced.

The coroner said the convicts suffocated in almost airtight cells, where they were confined during an organized revolt against a "monotonous" diet. Steam radiators were turned on full, he declared, and "in two days' steaming they (the convicts) literally baked to death." He asserted "the like has not been seen in history."

The guards, Alfred W. Brough, 39, and Francis Smith, 43, were held in \$2,500 bail each for further hearings next Tuesday.

FIREBUG IN SEATTLE

SEATTLE (AP)—Fire Chief William T. Fitzgerald appealed to apartment house owners and tenants today to set traps for Seattle's firebug, believed responsible for eight fires within the last 24 hours.

The fiend, whom Fitzgerald credits with 56 blazes endangering hundreds of lives since last October, climaxed his most recent activities by setting a fire in the fashionable Exeter apartment hotel early today.

The blaze, started in the receiving room, was extinguished by water from the automatic sprinkler system before it could spread.

KILLED WHEN CAR TURNED TURTLE

WINNIPEG (CP)—R. M. Penman, 68, of Portage la Prairie, Man., was killed and three other persons were injured when their automobile turned turtle between here and Portage la Prairie Tuesday night. Mrs. Penman suffered a broken leg; W. L. Alexander a fractured collarbone and Mrs. Alexander several fractured ribs.

One person in every 23 of England's population owns property valued between \$5,000 and \$25,000.

CROP SUMMARY IN MANITOBA

WINNIPEG (CP)—From 15 to 20 per cent of Manitoba's wheat crop has been threshed, a summary of crop conditions by the provincial government said. Several points in the south have completed harvesting but areas in the north have yet to start cutting.

Rust has taken considerable toll of non-resistant varieties of wheat while oats and barley in many districts have been greatly injured. The report added that appraisal of the crop this year was difficult because "the rainfall, which has been so important a factor, has been so very patchy, coming almost entirely in roving showers which hit and missed most erratically."

Pastures have been helped by the rains but they suffered in southwestern parts from grasshoppers. Fodder will be sufficient this season but a lot of the straw, rusted and damp, will be of low quality.

MILK MARKETING

VANCOUVER (CP)—Fraser Valley Milk Producers' Association and the Independent Milk Producers' Co-operative Association have submitted a brief to the British Columbia Lower Mainland Dairy Products Board proposing creation of a single agency to control milk marketing in Vancouver district.

The brief resulted from a series of meetings between the two producers' organizations.

It urged that the primary producer be given complete control of this single agency, to operate in addition to the marketing board.

A co-operative association would be set up to receive and sell all milk offered on the lower mainland. The association or single agency would charge one price to all milk distributors.

VOICES RUINED

TORONTO (CP)—R. Festyn Davies, conductor of the Welsh Imperial Singers here for an engagement, said today it was "pitiful" to see so many fine voices in Canada "ruined by improper teaching."

Mr. Davies said many teachers in the Dominion were fine pianists and organists, but knew little or nothing of tone production.

Bishop Expelled By Nazis

STUTTGART, Germany (AP)—Catholic Bishop Johann Spill of Rotenburg has been expelled from Wurttemberg after his refusal voluntarily to leave his See, it was announced today by D.N.B., official German news agency.

Grounds for expulsion, it was said, were that Bishop Spill was the only citizen in his diocese who refused to vote April 10 in the plebiscite on Austro-German Union.

Eskimo Teeth

EDMONTON (CP)—The white man is "making a good job of ruining the Eskimo's teeth," Dr. Roy H. Ellis, assistant professor of clinical dentistry at University of Toronto, said here on arriving by airplane from Aklavik, N.W.T.

Eskimos who live on dried fish and dried meat have fine teeth, but those who subsist on white man's food have the same dental troubles as white men, Dr. Ellis said.

Say Effect Would Not Be Serious

Wheat Preference Removal Not Worrying Economists

By JOHN LEBLANC

STE. ANNE DE BELLEVUE, Que.—Delegates to the International Conference of Agricultural Economics expressed belief today that removal of Canada's wheat preference in the United Kingdom market, as forecast by the Manchester Guardian, would have no appreciable effect on the Dominion's wheat sales in the United Kingdom.

Economists from Canada and England united in declaring any Canadian abandonment of the preferential rate of entry, in order to facilitate the proposed Anglo-American trade treaty would not bring about any great drop in Canada's present exports to the United Kingdom.

Dr. Charles F. Wilson, chief wheat statistician in the Dominion Bureau of Statistics, said the six-cents-a-bushel preference had given the Dominion a slight advantage in the British market. What disadvantage existed was felt chiefly by Argentina and the Danubian countries and the United States within the past year.

It was impossible to estimate how much export trade Canada had gained through the preference, or how much it might lose, if any, were the preferential tariff removed. Owing to varying conditions, accurate statistics on the effect of the preference had not been compiled.

However, there was virtually no evidence that the preference served to increase the volume of Canadian wheat exports entering the United Kingdom. Rather, it was the non-empire countries at a price disadvantage, which would be wiped out under removal of the preference.

British delegates agreed with Mr. Wilson that the loss of the preference would not hit Canadian wheat growers heavily. Doubt was expressed by some that treaty negotiations actually had reached the stage where abandonment of the preference had been decided on.

One representative expressed the opinion Australia and India would have to be taken into account in any amendment of the

School-by-mail Sessions End

To Be Perpetuated as Biennial Event; Nebraskan President

The first international conference on correspondence education, attended by delegates from all parts of Canada and United States and from Australia and New Zealand, wound up its three-day deliberations in the Empress Hotel at 4 yesterday afternoon.

During its closing session the conference had taken the following action:

Arranged for its own perpetuation on an international scale with biennial meetings.

Elected a slate of officers for a two-year term.

Chosen Lincoln, Nebraska, for its 1940 meeting place and some city in either Australia or New Zealand for 1942.

Mapped out a vast program of subject matter for its permanent international research committee.

Summarized its findings in condensed form, and arranged for the publication of a complete record of all its debates and proceedings.

NEBRASKAN HEAD

Dr. Knute O. Broady, professor of school administration at the University of Nebraska, was unanimously elected president for the next two years. He acted as secretary on the executive that arranged for the conference just ended.

J. W. Gibson, director of high school correspondence instruction with the British Columbia Department of Education and organization of the first conference, was named vice-president. Dr. H. C. Etter of the Manitoba Department of Education was chosen secretary, and Dr. A. G. Butchers, headmaster of the New Zealand government correspondence school, was confirmed as chairman of the permanent research committee.

Mr. Broady and Mr. Etter will represent the United States and Canada on the executive of the research committee. Mr. Gibson was appointed as British Columbia's representative in the general membership.

GREAT POSSIBILITIES

"The conference is a lusty infant with great possibilities. Its success hinges on the continued exchange of ideas and on the successful functioning of the continuing research committee."

said Dr. Broady in a short address at the end of the session.

Dr. Butchers gave the keynote of the conference in explaining the work of the research committee when he said:

"It is through education that democracy can succeed, and that education can be spread to the remotest corners by agencies such as those represented here."

Then he added: "History and natural boundaries to the contrary, you have got here in North America one single nation. I have found no material difference in outlook on the two sides of the line. Coming from a little island country, I have been struck with your enormous continental problems. The true solution of all of them is through education."

RESEARCH PROGRAM

Questions to be studied by the research committee will include what becomes of correspondence school graduates after they end their courses, what classes of the population are most in need of the mail school's services, the best types and methods of correspondence teaching, the cost and efficiency of correspondence methods, the teaching of scientific and technical subjects, the part of the radio, the provision of library facilities, the education of the physically incapacitated, parent education, and the use of intelligence tests and examinations.

During the meeting the chairman of the three round-table sections which considered different phases of correspondence teaching gave analyses of their discussions.

Points stressed were as follows: The vital relationship between the teacher and the pupil should be the core of the organization of the correspondence school.

What goes out from the correspondence school should be the best possible quality of teaching. A simplification of the administrative set-up is needed in the United States.

Over-emphasis on credits and grading of pupils can destroy the mail school's objective of stressing individual teaching.

Greater attention is needed in preparing courses to adapt them to individual aptitudes and interests; provision should be made for pupils of various levels of intelligence.

Revision of courses should be continuous.

Correspondence teaching should be treated as a sound entity and not as a stop-gap in the regular educational picture.

Alberta Brief on Economic Relations

EDMONTON (CP)—Alberta brief, dealing with economic relations between this province and the Dominion will be ready this week, Provincial Treasurer Solon Low said.

It is expected that 10,000 copies of the brief, which has been in course of preparation for a year, will be made available for public distribution.

The brief, which will be submitted to the government, contains several hundred pages.

Hard-of-Hearing Conference Here

Delegates From Northwest Cities Start Deliberation Tomorrow

An international conference of organizations for the hard-of-hearing will be held tomorrow and Saturday. Delegates will be here from the leagues and clubs in Seattle, Portland, Tacoma, Spokane and Vancouver.

The conference will be held at the S.O.E. Hall, 1216 Broad Street, where registration will take place tomorrow afternoon. The program will open at 8 with an official welcome by Mayor Andrew McGavin. This will be followed by a welcome from the Victoria Club for the Hard-of-hearing and replies from the visitors.

One paper, "What We Gain From Conferences," will be given and the evening will close with a musical entertainment by George Farmer and Phil Heal in a musical duologue; vocal solos by Peggy Moore, soprano, and community singing. The accompanist will be Mrs. Beatrice Stone. Refreshments will be served.

A guest of honor at the conference will be Frederick M. Duckles, member of the board of managers and formerly vice-president of the Pacific zone of the American Society for the Hard-of-hearing. At the banquet on Saturday evening Mr. Duckles will speak on "Pulling Together," which was so favorably commented upon at the recent conference of the American society in Cleveland.

On Saturday morning proceedings will open at 9:30 and conclude with a banquet at 7:15 in the Empress Hotel. Musical numbers will be given by Pierre Timpe, Patsy Swift and Vivien Combe. Banquet tickets may be obtained from the secretary.

Group hearing-aid equipment will be installed for all sessions and for the banquet. It is hoped that all interested persons will take advantage of this event and learn what the organizations are accomplishing.

Papers and addresses will be given during the conference on the following subjects: "History of Lip-reading," "Value of Lip-reading," "Hearing Aids, Their Value and How to Avoid Fakes," "What Is Being Done and Should Be Done for Hard-of-hearing Children," "Rehabilitation of Hard-of-hearing Adults," "Publicity, Its Value and How to Obtain Same" and "How to Finance Clubs and Leagues."

LIBRARIAN TO SPEAK IN EAST

Miss M. Clay to Address Montana Conference; Other Victorians Going

Miss Margaret J. Clay, librarian of the Victoria Public Library, will leave shortly for Montana to fulfill an engagement as the only Canadian speaker at the 29th annual conference of the Pacific Northwest Library Association, to be held in Many Glacier Hotel, Glacier National Park.

The sessions will be held from August 31 to September 2, and Miss Clay will give a report for the P.N.L.A. committee, which contains details of plans for reorganization of the American Library Association. This association includes Canada, the United States and South America. The object of the recommendations is to broaden the scope of library work, with special reference to the individual members of the association, so that they may have an opportunity for a greater voice in the management of association affairs.

Other Victorians planning to attend the conference are Dr. Kaye Lamb, provincial librarian, and Miss Edith Green of Victoria Public Library staff. Miss Anne M. Smith, Vancouver, first vice-president of the association, and the only Canadian on the executive, will preside at the session during which Miss Clay will speak.

Smaller Apple Crop Predicted

OTTAWA (CP)—The Dominion Bureau of Statistics issued its first forecast of the 1938 apple crop in Canada, placing it at 4,950,000 barrels, a reduction of 243,600 barrels.

The fruit and vegetable crop report said the weather, except in British Columbia, generally has been hot with an abundance of rain. In British Columbia rainfall has been so light that in some sections of the irrigated areas the water had to be cut off.

Estimates of the apple crop by provinces, with 1937 production in brackets, are: Nova Scotia, 2,250,000 barrels (2,250,000); New Brunswick, 26,400 barrels (44,000); Quebec, 148,600 barrels (177,000); Ontario, 693,420 barrels (745,300); British Columbia, 5,391,000 barrels (5,640,000).

One-third of Cars 25 Years Ago Are Insured

Insurance Conference Takes No Action on Compulsory Law

Approximately 60 per cent of the automobiles in urban areas and 15 per cent in rural areas are insured, an average of about 35 per cent for the country as a whole, the superintendents of insurance were informed yesterday afternoon by A. Leslie Ham, manager of the Canadian Underwriters' Association, Montreal, when the subject of compulsory automobile insurance came up for brief discussion.

H. G. Garrett, B.C. superintendent, said about 50 per cent of the cars in Vancouver and 35 per cent in British Columbia are protected.

The conference did not get into a detailed discussion of the proposal, although it was pointed out that both Manitoba and British Columbia attorneys-general had asked for an opinion on the subject.

R. Andrew Smith, legislative counsel for Alberta, said he could not see the need of a lengthy expression of views since, as he understood, there was little to add to points that had been brought out at previous conferences.

E. Wilson McLean, legislative counsel for Manitoba, said he did not think there was any immediate legislative action planned in that province.

Mr. Garrett said he could not state what was in mind in British Columbia beyond the fact that the Attorney-General had asked for a close study of the subject.

At the suggestion of Hartley McNair, superintendent of Ontario, it was decided to gather all available information on compulsory automobile insurance for a symposium on the subject. This will include the experience in New Zealand, Great Britain and parts of the United States where the law is in force.

The open sessions of the conference came to an end yesterday afternoon and the superintendents went into camera meeting this morning to consider their recommendations for the year.

During yesterday's meeting George LaFrance, superintendent for Quebec, announced he is considering a new exclusion of liability clause for auto insurance in Quebec, which will exclude only the wife and daughter of an insured. In other provinces the mother, father, sister and brother are also excluded as a means of avoiding collusion.

AUGUST 25, 1913

(From The Times Files)

Jack McNeil's swimming featured the British Columbia championships which were held on Saturday under the auspices of the B.C.A.S.A. The local crack captured first honors in the mile and quarter mile events, while he was third in the club handicap.

The eighth annual tournament of the Pacific Coast Cricket Association started on four grounds of the city today. New Westminster and Nanaimo played at Beacon Hill, Garrison and Vancouver at Work Point, University Inco and Cowichan at Mount Tolmie and Oak Bay and Burrard at Jubilee Hospital. The two crack Victoria eleven, Albions and Victorians, were idle.

Today, after two months' holiday, the public schools of the province reopened. In Victoria the most notable alteration is the registration of students at Oaklands and Burnside schools. These are two new schools which cost about \$50,000 each.

A Frenchman named Lebus was today fined \$10 in the City Police Court for having driven his motorcycle, on Fort Street on Wednesday last, faster than the speed limit. He admitted that it was going between 12 and 15 miles an hour.

PREDICTS HIGHWAY START NEXT YEAR

SEATTLE (CP)—Rep. Warren G. Magnuson, returning from a conference at Victoria with Premier T. D. Pattullo of British Columbia, said actual work on the United States-Alaska highway may start next year.

Magnuson, acting chairman of the American highway commission investigating the project, said "we found the Premier enthusiastic about the undertaking. We want to get work started next spring and believe it can be done."

Woman Artist Creates New Art Form

LONDON—A woman artist, Mrs. Agnes Pinder-Davis has created a new art form. Out of sheet aluminum, on three thousandths of an inch thick, she cuts exquisite designs which she applies by a process invented by herself to rare woods. Her technique has taken her years to perfect.

Old Waterloo Bridge, the demolition of which has been scarring London River for years, has unexpectedly yielded her valuable material for her work.

Its piles, made out of elm, were steeped for a century in London clay. Consequently they were found, on being cleaned, to have acquired a delicate dove-grey tinge of rare beauty.

One of the greatest attractions of the panels Mrs. Pinder-Davis makes is that the metal catches the color reflections of surrounding lights and fabrics, in glimmers coolly in daylight and glows warmly at night.

Mrs. Pinder-Davis, who is pretty and vivacious, has just returned to London from South Africa. She is enthusiastic about the artistic vitality of the Union, which she considers artistically the most advanced Dominion.

"I spoke with many of the leading South African architects, and saw the wonderful buildings they are putting up," she told me. "They are certainly very much alive to new forms of beauty."

"I myself gained much inspiration there. I have brought back sketches of some of the unique plants which I shall use in my designs."

"Some of these sketches have immediately come in useful. Lately I have specialised in work for ships, and my latest commission is for a panel for the recently launched Dominion Monarch."

"As that liner is to ply between Durban and Australia, my designs of South African plants will be perfectly appropriate."

Girl Guilty of Convent Arson

OTTAWA (CP)—A 15-year-old Sudbury girl today was convicted of arson in connection with a fire that caused \$80,000 damage to the Convent of the Good Shepherd, July 22. Judge J. F. McKinley in juvenile court sentenced her to St. Mary's Industrial School for Girls, Toronto, for an indeterminate period. The case was tried last week.

The judge said he believed the girl set fire to the convent as part of a plan to escape from the institution to which she had been sent by her parents because of incorrigibility.

The judge said the girl appeared physically as mature as many women do at 30 years. Mentally she was normal.

"Prior to your coming to the Good Shepherd Convent your conduct in Sudbury did not commend itself to those who loved you," he said. "You had chosen as companions possibly the toughest gang in Sudbury. You had been associating with ex-criminals, whom you knew to be ex-criminals, and the climax came when two of them quarrelled apparently over possession of you got into a stabbing affray."

From the time she entered the convent July 18, the girl planned escape "to return to the life from which your parents had rescued you," said Judge McKinley.

Final Decree in Mollison Divorce

LONDON (CP)—The London divorce court today made absolute the divorce decree which separated the Empire's most famous flying couple, James and Amy Mollison. The decree was granted to the former Amy Johnson last February 8. Once partners in spectacular speed flight that included victory over the north Atlantic route, the Mollisons have been separated since 1936.

News of Clubwomen

Plans for a membership dance to be held in St. Matthias Hall tomorrow night were discussed at a meeting of the executive of the Hollywood Club held on Tuesday evening at the home of Mr. and Mrs. Sam Gardner, Chandler Avenue. The executive also discussed holding a public dance early in September at the Oak Bay Theatre Hall. Refreshments were served by the hostess at the end of the meeting. Members of the executive are: Marjorie Todd, Evelyn Todd, Florence Gardner, Jean Tuthill, Roy Bishop, Sam Gardner, Albert Bevan, Len Passmore and Bill Van Druen.

Several activities were arranged for at a social meeting held on Monday evening in the K. of P. Hall by the Victoria Chapter No. 25, Women of the Moose, with senior regent Mrs. M. Carter presiding. Mrs. M. Willmott was reported improving by the sick matron, Mrs. R. Panting. Three applications for membership were received and candidates will be initiated at the next meeting, at which deputy grand regent Mrs. E. Deane of Vancouver will be present on an official visit. The social convener, Miss D. Guelpe, reminded members of a novelty social to be held at the home of Mrs. E. Jane, 153 Olive Street, next Monday evening. On Saturday, September 10, a home cooking stall will be held in Spencer's basement with Mrs. K. Herring in charge. Members can leave donations at the Royal Dairy on Tuesday, September 6, the committee will meet at the convener's home to arrange activities for the coming months and also joint socials with Lodge 1286. The next business night will be Monday, September 12. A wheel drive brought the evening to a close. Supper was served by the kitchen committee.

Vienna Girl New Cantor Prodigy

HOLLYWOOD (AP)—Eddie Cantor has found a new prodigy. One year Deanna Durbin appeared on his horizon. Then Bobby Breen. Today, the old Cantor home was busy as a beehive, for Eddie was mapping, by remote control, the career of his latest discovery.

Magnet for his attention is a pretty 16-year-old refugee from erstwhile Austria. Her name is Ruth Hilde Sommer, and she now is in New York. Sad-eyed, she and her mother fled Vienna a few weeks ago. Cantor met her at a ship's concert when he was returning from Europe and heard her play the piano. As he puts it: "Honestly, it makes my spine tingle. She's like Paderewski. She makes the classics seem simple as A-B-C."

Local Recruits For Air Force

LONDON (AP)—John Jenkins, 19, Victoria, B.C., and Leslie Clarke, 17, Duncan, B.C., Canadian recruits in the Royal Air Force's intensified recruiting campaign, arrived at the R.A.F. depot at West Drayton, Middlesex.

They will be enrolled in the wireless operators' school. Clarke and Jenkins said they met a recruiting officer in Victoria and through him had arranged to come to England.

"Bread and Make-up"

"Pain et Maquillage"—"bread and make-up," was the strangest battle-cry of freedom ever heard, but it echoed through the streets of Paris in the days of the French Revolution. In the dark era of the French monarchy, the right to be lovely was a class privilege. None but the members of the aristocracy were permitted to use rouge, powder or perfumes. Make-up was another of the divine rights of kings, and a right to be shared only with the few. Then came the revolution, and as the Sans Culottes stormed the city, the cry rose from thousands of feminine throats, "Bread and Make-up"—not a privilege for the few, but the right of all. They got it.

In a lawsuit of a quarter century ago, an English barrister made a speech that lasted 45 days.

RETURN OF THE FLAPPER—Predictions by fashion experts that the knee-length-or-better half skirt of the flapper era is rising into prominence again are proved to be on the up and up—so to speak—by this photo recently snapped on the sidewalks of Miami, Fla.

Lord Stanley Welcomed at Ottawa

OTTAWA (CP)—A formal welcome from the government of Canada was given Lord Stanley, British Secretary of State for the Dominions, and Lady Stanley, by Prime Minister Mackenzie King at a private dinner last night at the Ottawa Country Club.

The guests included Lord Gower, Governor-General of Australia; Sir Edward Ellington, British air marshal, and Wing Commander Robb of the British mission now surveying manufacturing and air training facilities in Canada.

Miss Jenny Morris, making a tour of Canada for a series of reunions with veterans who found shelter and friendship at her mother's hostel for soldiers in London during the war, also attended.

Ottawa guests included former Conservative leader, R. B. Bennett and his successor, Hon. Dr. R. J. Manion and Mrs. Manion; Sir Francis Flood, British High Commissioner in Canada, members of the diplomatic corps in Ottawa, and members of the government.

The Dominions Secretary and his party, including Lady Stanley and two sons, later left for Toronto to open the Canadian National Exhibition.

Baby Delivered By Rookie Cop

NEW YORK (CP)—A rookie cop who formerly was an auto mechanic acted as midwife and surgeon here today in a premature birth of a baby, saving the infant's life by cutting a strangulating umbilical cord with a razor blade.

The patrolman, Robert Freimann, raced from his post to the home of Mrs. Louise Sullivan when he learned her baby would be born before a doctor could arrive. Washing his hands in boiling water, the policeman, himself father of a seven-month-old daughter, assisted in the delivery at the seventh-month birth of Mrs. Sullivan's two-pound seven-ounce daughter.

Then noticing the umbilical cord was wrapped around the infant's neck and strangling it, Freimann called for a razor blade, sterilized it and cut the cord.

Afterwards Freimann said he recalled a lecture given to police on emergency surgery.

Girl's Swimming Feat

Fifteen-year-old Jessie Fisher, daughter of a Grimsby sea captain, has swam the Humber Estuary from Spurn Head to Cleethorpes Beach—a feat no woman has achieved before. The course she covered followed 11 miles. She did it in two hours 52 minutes. Her 16-year-old brother Guy accompanied her.

Great Singers Have Left Germany

Lotte Lehman to Become An American Citizen

Because she does not "feel free" in Nazi Germany, Madame Lotte Lehmann, the celebrated Austrian opera singer, is to become a naturalized American.

"I am quite Aryan," she said in an interview at Deauville.

"I have not been expelled from Germany, but I do not feel free there. Nothing is so precious as liberty. I want to be able to present Mendelssohn, Hugo Wolff or Marx whenever I feel like it."

Madame Lehmann sang at Covent Garden, London, this year after an absence from England of several years.

She has visited the United States frequently with her husband, singing in concerts and opera all over the States.

"New York is always my home from home," she wrote in her autobiography, "Wings of Song," which was published this year.

Another famous German singer, Elizabeth Schumann, has also broken with Hitler's Germany. She put herself beyond the pale by singing for the benefit of exiled German artists, whose work, banned as degenerate by the Fuehrer, has been on exhibition here. Elizabeth Schumann, like Lotte Lehmann, is pure Aryan.

German Women Use New Salute

BERLIN (AP)—A new form of salute which women are to execute in the presence of Reichsfuehrer Hitler at social functions was used for the first time last night. The new salute, used by women guests at a state banquet for Admiral Nicholas Horthy, regent of Hungary, is delivered by raising the right hand shoulder high with a bent elbow, the saluter at the same time slightly inclining the head.

Slap, Horror, Sex Movies Unpopular

HOLLYWOOD (AP)—Fifty thousand fan letters are teaching Hollywood the public wants to see fewer slapstick comedies, horror pictures and sex dramas on the screen, producer Joe Pasternak said today.

Love stories about people in ordinary walks of life, with dramatic emphasis on contemporary situations, are rated first.

Next in order of expressed preference is biography of an important, colorful figure from history.

Only about 19 per cent of the land area of the United States produces crops.

HOW TO MAKE ICED TEA

Infuse six heaping teaspoons of Salada Black Tea in a pint of fresh, boiling water. After six minutes strain liquid into two-quart container. While hot, add 1 to 1½ cups of granulated sugar and juice of 2 lemons, strained. Stir well until sugar is dissolved. Fill container with cold water. Do not allow tea to cool before adding the cold water; otherwise liquid will become cloudy. Serve with chopped ice.

"SALADA" ICED TEA

Three Mysterious Women in Black Visit Tomb

HOLLYWOOD (AP)—The mysterious woman-in-black who appears each August 23 at the grave of Rudolph Valentino, turned out yesterday to be three mysterious women-in-black.

In the best Hollywood tradition, the posthumous floral display at the crypt of the great lover of the silent films was bigger than ever.

Floral tributes came from various parts of the world on this, the 12th anniversary of Valentino's death. For years, a woman, clad in black, has appeared at the grave.

Today, woman-in-black No. 1 was seated on the cold granite steps outside Hollywood cemetery at 8 a.m., when the cemetery gates were opened. Her face was masked by a heavy black veil. She wore dark glasses. There was a black stone cross hanging from her neck. Her entire ensemble was black. Her floral offering was a bouquet of asters and tuberoses.

Woman-in-black No. 2 made a dramatic appearance four hours later. She alighted from a glistening black coupe, driven by a chauffeur. Her flowers were mixed. News photographers snapped her as the chauffeur cleared a path to the mausoleum.

Half way to the crypt, Woman-in-black No. 2, sank to a bench, shielding her face and crying softly. A few minutes later she arose and walked to the tomb placed the flowers, turned and went, hurriedly back to her limousine.

The No. 3 Woman-in-black came some time later, but by this time the entire tomb was covered with floral offerings, and hundreds of the curious had come to the cemetery, many with cameras to take pictures of the crowd.

Women Invade Fete

WORMS, Hessen (CP)—This historic city on the Rhine has been chosen as site for the "Black-fischfest"—fete of fishermen which opens August 27. In recent years women have taken a big part in the fete and the word "Blackfish" also is slang for "flapper."

Modern Etiquette

By ROBERTA LEE

1. In refusing an invitation it is wise to make several excuses?

2. Should a young man give a girl lingerie as a birthday gift?

3. If a bride receives a number of duplicate gifts and asks close friends for permission to exchange theirs, should they feel that she has been rude?

4. In the daytime when a girl is walking through a crowd with a man, is it all right for her to keep her hand on his arm?

5. Should a man hold on to a girl's arm when the two are walking along a city street?

What would you do if—

Someone calls to explain that it is impossible to keep an engagement, and you realize that you had completely forgotten about it—

(a) Show the surprise you feel?

(b) Don't give yourself away?

(c) Say, "To be quite frank, that appointment had slipped my mind?"

Answers

1. No. One reason is more convincing than several.

2. No. Not even if she is his fiancée.

3. Not at all.

4. Yes.

5. No.

Best "What Would You Do?" solution—(b). Frankness is often rudeness.

Retires in October

VANCOUVER—George A. Ross, for 25 years secretary of boys' work for Vancouver Y.M.C.A., will retire October 1.

CHAMPION SMOKER

The champion woman pipe smoker of Texas is Mrs. Sadie Cornett, inmate of the county convalescent home in Dallas. She is 111 years old.

Six Homers Are Feature

Sports Mirror

By PETE SALLAWAY

HORSES MAKE riders, just like baseball clubs make managers, and football teams make coaches.

This from the lips of Edward George Arcaro, greatest jockey alive today, who dispels many turf myths.

There was the story of Buddy Ensor, who was supposed to lift horses out of starting gates.

"That is impossible," says Arcaro.

"Horses are schooled or taught from babyhood the lessons of breaking from the starting gate. Their major education, of course, comes as yearlings just before they make two-year-old starts.

"A jockey can no more help a horse from the starting gate than fly. The horse will break with the starting bell.

"The trick then is to get him in stride, and no jockey can tell you how he does that. It's a knack.

"You simply feel that the horse is in stride. Of course, it is important that a rider be ever alert in giving him moment every bit of co-operation simultaneously with the sounding of the bell, which, to horses, becomes a signal that the start is on."

There is the story that older jockeys, who have become fairly wealthy, will not take chances. You hear that when they see a hole they hesitate to take advantage in the interest of safety first.

The 22-year-old Arcaro laughs at this.

"Anyone able to be in the hazardous profession of riding running horses can't be chicken-hearted," he asserts. "The difference between the youngster and the older is that the youngster will gallop where he has no idea he is going, whereas the older knows where he is all the time. You can't beat experience. Certainly, there is no sense in comparing the abilities of a peagreen with that of, say, Sonny Workman, when it comes to judgment of pace, or the capability of a thoroughbred."

How does the topnotch jockey live?

You have read and heard that they do road work, etc.

"That is true in many instances," explains Arcaro. "Increasing weight is the bugaboo of all riders. A lot of them have to don heavy sweat shirts, rubber suits, etc., and then in sweltering weather trot along a road to take off pounds.

"But my contract with the Greentree Stable calls for me to do 112 pounds, and I'm usually around 111. Haven't changed much in a year or two. As a matter of fact, my problem is to keep my weight up."

Arcaro stands five feet three. He takes a month's rest each fall, during which he blows up, as he says, to 115.

He quickly gets it off galloping horses in the morning.

Arcaro, whose latest feat was kicking Thanksgiving, an outsider, first under the wire in the historic Travers, won 122 races in 1937, and already is close to that this year. He has won more stakes this year than any other rider, and has lost track of his seconds and thirds.

Arcaro is under contract to the Greentree Stable of Mrs. Payne Whitney, which pays him \$12,000 a year and 10 per cent of purses. When he rides for other stables he gets \$300 as a retainer, 10 per cent of the purse, and all expenses.

Arcaro earned \$30,000 in 1937. He has earned more than that this year.

He says that Lawrin, which he booted home in the Kentucky Derby, is the best three-year-old he ever had the leg up on. He calls Thingumabob, which he rode to victory in the \$30,000 Arlington Futurity and which fell under him and had to be destroyed at Saratoga, the fastest two-year-old in his experience, although he was atop Nellie Flag in her phenomenal juvenile year.

Zulu Giants and House of David Ball Clubs in Great Hitting Exhibition

Blasting out 55 hits, including six home runs, the Zulu Giants and House of David, touring colored professional baseball teams, broke even in the first two games of their three-game exhibition series at the Athletic Park yesterday. The Giants captured the afternoon engagement 12 to 5 and the Davids came back to take evening clash 15 to 9.

Third and rubber game is scheduled for tonight, starting at 5.30. Both games yesterday attracted large crowds.

Big Chief Bolo, giant member of the Giants, was the individual hero of the opening games. In addition to hurling his club to victory in the afternoon, Bolo contributed three sizzling home runs in the evening game. The big fellow was in grand form at the plate and his average for the day was five for six.

The other four-base knocks were potted out by Peno of the Giants, who snared two successive four-base blows at night, and Stockard of the Giants, who lifted the ball over the fence in the afternoon. Five of the six homers were out of the park. Bolo getting a long drive to right field to complete the circuit.

The negro club put on as heavy hitting an exhibition as was ever witnessed at the park and the fans certainly liked it.

In the afternoon exhibition the Giants played errorless ball behind the stellar pitching of Bolo. Their fielding sparkled and they packed lots of life. The Giants collected 14 hits from the offerings of three pitchers. Rogers, rtd, was yanked in the second in favor of Samson, and the latter was chased to the showers in the fourth, Mays taking over. The Giants got six extra-base hits, including three triples.

NIGHT GAME

It was a different story at night. The Davids returned Rogers to the mound and the little right-hander showed a lot more stuff than on his first appearance. He got into trouble several times but his teammates drove over plenty of runs and kept him on top.

In the eight-inning night affair the Davids rattled out 19 hits, six of which were for extra bases. Lulu, Giants' southpaw, went the whole route despite the fact he was hit hard. He did not get the best of support, five errors being chalked up against his teammates.

The short scores follow:

| | | | |
|----------------|--|----|---|
| First game— | R | H | E |
| House of David | 5 | 10 | 2 |
| Zulu Giants | 12 | 14 | 0 |
| Batteries— | Rogers, Samson, Mays and McCray; Bolo and Gracia, Maccum, Rusto. | | |
| Second game— | R | H | E |
| Zulu Giants | 9 | 12 | 5 |
| House of David | 15 | 19 | 1 |
| Batteries— | Lulu and Gracia; Rogers and McCray. | | |
| Umpires— | Redgrave and Holmes. | | |

Hudson's Bay in Cricket Triumph

Score 124 to 53 Victory Over Five C's in Berger Cup Match

Hudson's Bay cricket eleven took the measure of Five C's by a margin of 71 runs yesterday afternoon at Beacon Hill Park to move up a step closer to the Victoria Club side, Berger Cup leaders.

Battling first, Five C's found it hard to connect with Norman Tyrell's offerings and the first six batsmen were dismissed for the small total of 44 runs. Scoring was even slower for the final four wickets, the churchmen only managing to push their total to 53. Wilkinson and Shrimpton were the only batsmen who reached double figures.

The Bays started batting with confidence and had put on 37 runs for two wickets. After the fourth wicket fell their score had advanced to 41 and then John Bennett came through with the winning runs, hitting three fours and a single. Hesketh and Oakman boosted the total to 117 for seven wickets and the final score read 124.

Tyrell, Bays' trundler, was in fine bowling form. He had the splendid analysis of seven wickets in seven overs for 16 runs. Hepworth had the best bowling figures for the churchmen. He took five wickets for 23 runs.

SOFTBALL SCORES
Victories were registered in Poodle Dog Cafe Cup knockout softball games yesterday evening by Burns Shamrocks and Saanich Construction. The Shamrocks defeated Young Citizens' League, 8 to 3, while the Saanich nine emerged with a close 6 to 5 verdict over Hollywood Club C.

Victoria Daily Times

Matches Keen Title Doubles

U.S. Championship Tennis Produces Stiff Competition

BROOKLINE, Mass. (AP)—The women's United States doubles tennis competition, which has been relegated to side-show status since it was incorporated with the men's team title play, yesterday became the main attraction at Longwood.

Although the only former winners in the men's section, Don Budge and Gene Mako and the twice successful Wilmer Allison and Johnny Van Ryn, played into the semi-finals, the feminine stars provided the thrills.

Budge and Mako had an easy assignment gaining the second last round by defeating Russell Bobbitt of Atlanta, and Frank Guernsey of Orlando, Fla., 6-3, 6-2, 6-3. Allison and Van Ryn entered that bracket, for the eighth time in the last 10 years, by trouncing Bobby Riggs of Chicago, and Bryan Riggs of Atlanta, 6-1, 8-6, 6-2.

CHAMPIONS EXTENDED

The day's highlight was the tight squeeze, the defending champions in the women's section, Alice Marble and Mrs. Sarah Palfrey Payton, endured to enter the semi-finals at the expense of Mme. Sylvia Henrotin of France, and Mrs. Dorothy Andrus of New York, 6-4, 5-7, 12-10.

Another favored team to meet with unexpected resistance were the second seeded Britons, Kay Stammers and Margot Lumb, who had three match points against them in the 14th game of the final set before they pulled out a 6-1, 1-6, 11-9 win over Mrs. Harry Hopman and Dorothy Stevenson of Australia.

There was little excitement while Nancy Wynne and Thelma Coyne of Australia, the top-seeded foreign entry, were defeating Virginia Wolfenden and Patricia Canning of San Francisco, 10-8, 6-2, and Mme. Rene Mathieu of France, and Jadwiga Jędrzejowska of Poland, were turning back Dorothy Bundy of Santa Monica, Cal., and Dorothy Workman of Los Angeles, 6-2, 6-2.

Ganges Tennis Tourné Opens

GANGES-The British Columbia tennis spotlight focussed on the Harbor House courts today following opening of the annual Gulf Islands championship tournament yesterday.

Stars of Victoria and Vancouver were scheduled to meet today following the preliminary round yesterday during which 10 matches were played.

Results follow:

MEN'S SINGLES
J. Gemmill, Vancouver, defeated H. DeBurgh, Salt Spring Island, 6-1, 6-1.
D. K. Crofton, Ganges, defeated Norman Best, Hollywood, 6-1, 6-2.
J. B. Hutchinson, Vancouver, defeated B. Robinson, Ganges, 16-6, 6-2.
J. Ritchie, Vancouver, defeated Pat Crofton, Ganges, 6-1, 6-1.

WOMEN'S SINGLES

Miss E. Tomlin, West Summerland, won over Mrs. O. Freile, Seattle, 6-12, 4-6, 8-6.
Mrs. A. Lipsoe, Seattle, defeated Miss S. Chanteleau, Salt Spring Island, 6-0, 6-1.
Mrs. G. A. Mathewson defeated Mrs. G. Shove, Ganges, 4-6, 6-3, 6-3.

MIXED DOUBLES

Mr. and Mrs. G. A. Mathewson defeated Miss W. Morris and B. Robinson, 6-7, 1-6, 6-2.
Mrs. O. Freile and Norman Best defeated Mrs. A. Lipsoe and D. K. Crofton, 6-2, 3-6, 6-3.
Mrs. G. Shove and Pat Crofton defeated Miss E. Tomlin and Desmond Crofton, 4-6, 6-1, 6-3.

Nanaimo Team Here Saturday

Up-Island Lacrosse Squad Will Oppose Conservatives

A box lacrosse match will be played on Saturday at the Athletic Park, commencing at 5.30 between Fletchers of Nanaimo and the Conservative team of Victoria, the runners-up for the senior championship of the city.

The referees will be Menzies and Popham.

Fletchers is a very strong aggregation and are in the final for the championship of their league. Special seating accommodation is being arranged for.

FEATURE ANGLING PRIZE—Here is seen the Joker's International Trophy which will be the main award at stake in the big salmon derby at Brentwood on Sunday. Donated by George Patton, the cup is presented to the rod artist landing the biggest salmon in the competition sponsored by the Victoria-Saanich Inlet Anglers' Association. It was won last year by Dick Wakeham. Included in the large field of competitors will be 20 fishermen from Port Angeles. Fishing will open at 6 in the morning and finish at the same time in the evening.

City Golf Meet

Men's Amateur Championship Opens Sunday at Oak Bay Links

Victoria's top flight amateur golfers will gather at the Victoria Golf Club bright and early Sunday morning for the 36-hole qualifying round of the annual city championship. One of the largest entry lists in the history of the event is expected. Entries close at 5 on Friday, when the draw will be made.

Jimmy Todd, star southpaw and holder of the title, will be on hand to defend his crown. Todd recently returned from the Canadian amateur championship at London, Ont., where he gave an excellent account of himself.

The 16 low scorers in the qualifying round will form the championship flight and match play will open on September 3, continue September 4, with the 36-hole final slated for the September 5, Labor Day.

The Oak Bay club has arranged a special competition for those wishing to play only 18 holes in the medal round. They will meet in a special flight.

Those who qualify for the championship may play off their matches during the week by arrangement.

The four best gross scores from each club in the qualifying round will be recorded and the club with the lowest total will have custody of a shield for champion club of the year.

Free privilege of the course is extended to all entrants on Friday or after 3.30 on Saturday.

A fine list of prizes has been secured and the awards are now on view in the windows of W. and J. Wilson, Government Street.

Racing Results

Time, 1:32. Also ran: Mr. Gentleman, Leysboro, Gashbone, Mile Talk, Vancouver Express.

Cincinnati Crowding Giants For Second

Kay Staples Net Champion

Wins Vancouver Island Girls Singles Title at Duncan

DUNCAN — A hard-fought three-set victory over Jean Eckardt, Mission, gave Kay Staples, the Vancouver Island girls under 18 singles tennis title on her home court yesterday.

As the Duncan girl took the match 6-2, 5-7, 6-4 from the mainland winner of the B.C. junior championship, Neil Ballard, Seattle, knocked over Walter Knotts, Victoria, 6-0, 7-5 to annex the boys under 18 laurels.

Knotts came back to join H. Bennett in the doubles to give Victoria the boys' team event with a 6-2, 4-6, 6-2 decision over Roels and Thomas of Vancouver, while Victoria's Anna Peden joined Ballard to beat Tony and Kay Staples 2-6, 6-3, 6-2 in the mixed.

Miss Staples paired with Virginia May to win the girls' doubles from Arlene King and Monica Roberts. The scores were 6-2, 6-4.

UNDER 16 PLAY

R. Harris, Vancouver, overcame his fellow townsman, D. Williams, 6-3, 6-4, to win the boys under 16 title, and Paula Merrix, Victoria, won 6-3, 6-3 from Monica Roberts in the similar final for girls.

Paris and Muriel Birch teamed to defeat Robinson and Monica Roberts in the under 16 mixed doubles 6-4, 6-3, and Robinson and Peck, Seattle, won from Pelouze and Livesey, Bellingham, 6-3, 6-0 in the under 16 boys' doubles.

In the final of the girls under 16 doubles, Paula Merrix and Muriel Birch took the measure of Monica Roberts and Paula Jones with the loss of only one game.

In the still younger grouping, for players under 14, G. Livesey, Bellingham, and Muriel Birch, Vancouver, took singles honors, with the latter partnering Jeffreys, Vancouver, to win in the mixed and joining Paula Merrix to take the girls' laurels. R. Cory and G. Livesey won the boys' doubles in that section.

Consolation honors went to O. Roels, Vancouver, in the older boys' grouping, and to J. Carrier, Brentwood, in the girls' division. Prizes were presented by Dr. E. W. Boak, president of the British Columbia Lawn Tennis Association, who congratulated the club and players on the success of the tournament, and offered Duncan the opportunity of holding the junior event annually.

ATHLETIC MEETING

A meeting of all senior members of the Esquimalt Athletic Association and prospective members will be held tomorrow night in the club quarters, Fraser Street, at 8. L. DeCosta, chairman, will preside. Basketball and other branches of sport will be discussed.

BOXING

New York — Pedro Montanez, 138½, Puerto Rico, stopped Orville Drouillard, 137, Windsor, Ont. (5); Walter Franklin, 156, Hamilton, Ont., stopped Frankie Castiglia, 160, Brooklyn (3). Oakland, Calif.—Solly Kreiger, 163, Brooklyn, stopped Dale Sparr, 160, Olathe, Colo.

MARCIA PRIOR WINS TROPHY

Victoria Girl Captures Honors in Banff Golf Play

BANFF, Alta.—S. P. Howard of Lethbridge, Alta., yesterday captured the Willingdon Cup, a medal handicap competition, as competitors at Banff's golf week abandoned play in their knock out contests for the day.

Howard, with round of 78.81, and an eight handicap, led the field with a net of 143, a stroke better than Jim Hill of Calgary. Howard also won the prize for the low gross score after Ronnie McWilliams of Calgary shot a 76 in the morning round and blew himself to a 90 in the afternoon 18.

Marcia Prior of Victoria and Gladys Atkin, Banff, tied with net 79's for the women's competition. Miss Prior took the Association Screen News trophy on an extra hole playoff with a par five.

The two leaders in both the men's and women's matches had large leads over the nearest competitors.

Trapshooter Breaks 966 Straight

NANDALIA, O. (AP)—Joe Hiestand of Hillsboro, O., set an unprecedented grand American trapshooting record yesterday as he broke 900 targets in a row—a perfect score for the entire 16-year program. Since he broke 66 consecutively in a Yorklyn, Del., shoot, his total of successive perfect shots reached 966.

Play Continues City Net Event

Further results in the city tennis championships at the Victoria Club follow:

WOMEN'S DOUBLES

First Flight

Mrs. Archibald and Miss Villar defeated Mrs. Rough and Miss Elliott, 6-3, 4-6, 6-3.

Misses N. and M. Rice-Jones defeated Misses D. Anderson and J. Lifton, 6-0, 6-1.

Misses F. Grant and N. Stephens defeated Mrs. Terry and Miss L. Benson, 2-6, 6-2, 6-1.

Misses Arnott and M. Crease defeated Misses F. Oates and D. Swayne, 6-3, 4-6, 6-4.

MEN'S SINGLES

First Flight

B. Walker defeated G. Briscoe, 6-2, 6-3.

A. Wright defeated R. Thorpe, 6-1, 6-0.

C. Lucas defeated J. Anderson, 6-0, 7-5.

MIXED DOUBLES

First Flight

Miss C. Donaldson and Nixon defeated Miss O. Peetz and Williams, 6-3, 6-1.

MEN'S DOUBLES

First Flight

Bird and Humphries defeated Wells and Harris, 6-4, 4-6, 6-2.

R. A. Phillips and A. C. Brand defeated J. Clarke and R. Jackson, 6-2, 6-4.

UNDER 16 PLAY

R. Harris, Vancouver, overcame his fellow townsman, D. Williams, 6-3, 6-4, to win the boys under 16 title, and Paula Merrix, Victoria, won 6-3, 6-3 from Monica Roberts in the similar final for girls.

Paris and Muriel Birch teamed to defeat Robinson and Monica Roberts in the under 16 mixed doubles 6-4, 6-3, and Robinson and Peck, Seattle, won from Pelouze and Livesey, Bellingham, 6-3, 6-0 in the under 16 boys' doubles.

In the final of the girls under 16 doubles, Paula Merrix and Muriel Birch took the measure of Monica Roberts and Paula Jones with the loss of only one game.

In the still younger grouping, for players under 14, G. Livesey, Bellingham, and Muriel Birch, Vancouver, took singles honors, with the latter partnering Jeffreys, Vancouver, to win in the mixed and joining Paula Merrix to take the girls' laurels. R. Cory and G. Livesey won the boys' doubles in that section.

Consolation honors went to O. Roels, Vancouver, in the older boys' grouping, and to J. Carrier, Brentwood, in the girls' division. Prizes were presented by Dr. E. W. Boak, president of the British Columbia Lawn Tennis Association, who congratulated the club and players on the success of the tournament, and offered Duncan the opportunity of holding the junior event annually.

ATHLETIC MEETING

A meeting of all senior members of the Esquimalt Athletic Association and prospective members will be held tomorrow night in the club quarters, Fraser Street, at 8. L. DeCosta, chairman, will preside. Basketball and other branches of sport will be discussed.

BOXING

New York — Pedro Montanez, 138½, Puerto Rico, stopped Orville Drouillard, 137, Windsor, Ont. (5); Walter Franklin, 156, Hamilton, Ont., stopped Frankie Castiglia, 160, Brooklyn (3). Oakland, Calif.—Solly Kreiger, 163, Brooklyn, stopped Dale Sparr, 160, Olathe, Colo.

MARCIA PRIOR WINS TROPHY

Victoria Girl Captures Honors in Banff Golf Play

BANFF, Alta.—S. P. Howard of Lethbridge, Alta., yesterday captured the Willingdon Cup, a medal handicap competition, as competitors at Banff's golf week abandoned play in their knock out contests for the day.

Howard, with round of 78.81, and an eight handicap, led the field with a net of 143, a stroke better than Jim Hill of Calgary. Howard also won the prize for the low gross score after Ronnie McWilliams of Calgary shot a 76 in the morning round and blew himself to a 90 in the afternoon 18.

Marcia Prior of Victoria and Gladys Atkin, Banff, tied with net 79's for the women's competition. Miss Prior took the Association Screen News trophy on an extra hole playoff with a par five.

The two leaders in both the men's and women's matches had large leads over the nearest competitors.

Trapshooter Breaks 966 Straight

NANDALIA, O. (AP)—Joe Hiestand of Hillsboro, O., set an unprecedented grand American trapshooting record yesterday as he broke 900 targets in a row—a perfect score for the entire 16-year program. Since he broke 66 consecutively in a Yorklyn, Del., shoot, his total of successive perfect shots reached 966.

Postpone City Softball Final

The city championship final softball series between Camerons and Colwood Wood, which was slated to open Friday night at the Athletic Park, has been postponed until a later date owing to injuries in the Cameron camp.

Both Jack O'Connor and "Rosy" McLellan are reported to be suffering from sore arms and several other players are said to have injuries.

COAST LEAGUE

Seattle was back in there by a half-game margin again today after taking a 6 to 4 13-inning game which the Seals should have won in the regulation nine innings if old Paul Ballou hadn't lost his charm as a relief hurler.

Los Angeles' Angels held onto their four-and-a-half game league leadership as jittery Joe Berry limited Hollywood Stars to seven hits, and after his teammates gave him a two-run lead in the second, coasted to a 3 to 1 victory.

With Oakland Acons playing true to form, second place Sacramento Senators had an easy time winning a 6 to 4 victory. Hollywood's defeat pushed the movie city crew back into seventh place as Portland Beavers nosed out San Diego Padres 2 to 1.

FOR YOUR VACATION

Forbidden Plateau A Mountain Playground

New World for
Tourists and Climbers
To Conquer

The September vacationist finds something in the great outdoors that the earlier holiday-seeker misses. There is a new clearness in the air, a softer warmth in the days, a tinge of autumn color on the hillside and a harvest moon in the sky. No better month could be found to explore the wonders of Vancouver Island and to see for the first time the beauties of the Forbidden Plateau.

Hidden away in a little-explored hinterland, the Forbidden Plateau is a natural playground where sheer beauty of scenery and grandeur of cliff, lake and valley spread for miles in unbroken perfection. This natural sanctuary is a paradise for anyone who loves nature unadorned. High above the level of the sea, the air is invigorating, crystal clear and wine sweet with the scent of heather and other mountain flowers. A tonic that will give renewed strength to all.

In the plateau country there is something for everyone. There are hundreds of lakes, bordered by heather, gnarled cedars and cypress trees. Hundreds of wild flowers in a great park where there is no undergrowth to trip the foot or spoil the view. Fighting Kamloops trout in all the larger lakes, to lure the ardent fisherman. Mountain peaks standing like sentinels, some snow-clad, others cloaked in heavy green. For those who will climb, the view from the top of these peaks cannot be surpassed. There is the Cruikshanks Canyon, awe-inspiring in its rugged wildness and the red snow, only to be found in two other known places in the world. These and many other wonders make the Forbidden Plateau a place that must be visited over and over again.

The Forbidden Plateau is reached from Courtenay by a choice of two ways. The Dove Creek Trail, used by the Mountaineer Club of British Columbia when they first trekked into the plateau and which has been in use consistently ever since; also the Bevan Trail, which follows the way early trappers and explorers first went in beyond the mountains. The Dove Creek Trail is reached by the highway, just eight miles out of Courtenay. It winds its way for 12 miles up and over a well-beaten pathway bordered by tall pines, into the very heart of the plateau country, and ends at Lake Croteau, 5,200 feet above the sea.

CROTEAU LAKE

Croteau Camp is situated at Lake Croteau, and no happier choice for a mountain camp could possibly be found. Behind the lake rises Mount Elma; farther away over the tops of the trees, the snow-capped peaks of Castle, Regan, Albert Edward and Frink can clearly be discerned. Around the edge of the lake grow wild flowers of many colors, and the water is so still and deep, its many changing reflections defy description. Eugene Croteau, the owner and general proprietor of the camp, is a veteran of the trail in British Columbia. He has established his camp on Croteau Lake particularly because it is within easy reach of the many

points of interest to be attained. His love of the plateau country, his complete knowledge of the trails and the needs of the trail finders, his courteous attention to everyone, makes Camp Croteau the popular place it is. Sleeping accommodation is provided under canvas in convenient proximity to the main camp, yet with adequate privacy for each and every party. Wholesome, well-cooked meals are ready and waiting for the hungry mountain climber at almost any time of the day. Once visited, Camp Croteau, in the very centre of the plateau country, will be remembered with delight for many a day.

This season Mr. Croteau has established at the beginning of the Dove Creek Trail, just off the highway, a very fine coffee shop and rest hostel. Built in a rustic design, it fits in well with the surrounding scenery while filling a much-needed place in the mountain climber's itinerary. Pack trains leave from the hostel on scheduled trips into Lake Croteau twice weekly, but it is possible to hire horses and guides at any and all times.

FORBIDDEN PLATEAU LODGE

The Bevan Trail, through arduous work, has been rebuilt within the last few years into a good motor road. The grade is excellent and the view obtained over the whole length of the way is most enjoyable. Fourteen miles up the mountainside the road extends, and where it ends is Forbidden Plateau Lodge.

Four years ago, Mr. and Mrs. Clinton Wood, who have been interested in the development of the Forbidden Plateau from its beginning, started to build this mountain lodge in a wilderness of burnt-off land and forgotten stumps, high on the side of a mountain. Today, they have a lovely resort, up-to-date and modern in every way. The stumps and logs are all cleared away and in place of them a delightful garden is gradually taking shape. Flower beds, grassy slopes, tiny streams, even a swimming pool of clear, sparkling mountain water appear in a growing acreage on the mountainside. A wide veranda extends along the whole length of the lodge and the view looking down over the trees to Courtenay and the Comox Peninsula is in its beauty of coloring and changing lights and shade. Single bedrooms and larger suites all have hot and cold water and every modern convenience. There are cabins, too, where the mountain climber may find a simple yet attractive accommodation. Delightful meals are served in a long, low-ceilinged dining-room, and at night guests gather about the huge stone fireplace in the friendly lounge to talk of the wonders of the plateau. Those who do not wish to go further into the plateau may find all the benefits of a mountain holiday right at the lodge.

At Marlwood Lake and at McKenzie Lake, in the heart of the plateau country, Mr. Wood has established camps in connection with the Forbidden Plateau Lodge, where guests may savor the fun of sleeping, eating and climbing under real mountaineering conditions.

Whether it be Bevan Trail or the Dove Creek Trail, September is always a perfect month to visit the Forbidden Plateau.

The pattern of the skin on a bird's leg is a valuable aid to scientists in linking up the various bird families. Related families have similar designs.

Judge to Retire

CALGARY (CP)—Associated with the bench and bar in Alberta since 1899, Judge Edward Peel McNeill, judge of the district court of southern Alberta at Calgary, will retire on December 23, when he will attain the age of 75, the age limit for judges.

Prior to his appointment to the bench in 1913, Judge McNeill was one of the leading lawyers in Alberta.

When more than 100 convicts from Kingston penitentiary were transferred to Stony Mountain at the end of July there was an outbreak of insubordination which officials said was to be expected while the men were getting accustomed to their new environment. Since August 5, the minister said, the advice from his officials was that the prison routine was following a normal course. Reports this week that insubordination was general at Stony Mountain, with a large number under special punishment, promoted the acting superintendent, Chief Inspector G. L. Sauvaut, to send a message of inquiry to the warden there.

Today Inspector Sauvaut reported to the minister the result of his investigation.

The northern portion of Chile is believed to be the driest area on earth.

Says He Paid For Protection

NEW YORK (AP)—George Weinberg, 36, ex-convict and once business manager of the multi-million-dollar Dutch Schultz "policy empire," testified in Supreme Court Tuesday that Tammany District Leader James J. Hines promised "protection" from police raids on Harlem policy banks.

"I paid Jimmy Hines \$500 a week and higher for protection," Weinberg said.

The witness testified during one of his frequent "pay-off" meetings with the politician, he talked to Hines about the police.

"Hines promised he would try to do something about the police," Weinberg went on, "and later the number of arrests in policy bank raids decreased."

Auto Camps and Resorts

MOULDS DOUGLAS PARK

MT. DOUGLAS TEAROOMS AND CONFECTIONERY. Store. Afternoon tea a specialty. 2c. Home cooking.

CAMPBELL RIVER

TYEE AUTO CAMP—CARBON, ELECTRIC. Light, shower, boat by day or hour; fishing tackle. George Vanstone, mgr.

Deep Cove Lovely in the Late Summer

Deep Cove is always a charming spot to spend a vacation. There are tall trees that give a welcome shade and narrow trails to tempt those who will to wander far on foot. The water is crystal clear along the shore and a joy to bathe; the fishing is an added attraction.

THE CHALET

The Deep Cove Chalet completes the picture. Situated as it is in a very well-known beauty spot, its sloping roofs and wide verandas give it a comfortable air of well-being that is very restful to the traveler. There are tennis courts, boats for hire and accommodation within the lodge for many. The guest rooms are attractive and there is a spacious lounge commanding a perfect view of the whole bay. The chalet specializes in English countryside teas with Devonshire cream, served on the shady verandas—and in chicken dinners. To take the Saanich Peninsula drive with the chalet and a perfectly-cooked meal at the end is to spend a delightful holiday.

Perhaps it is only for a short few hours—again it may be a long week-end or a two-week vacation. Whatever your hours of leisure, if they have been spent at Deep Cove they have been pleasant and filled with experiences to be remembered and sampled again another day.

Comment on City By Journalists

Victoria is "Heaven" Says One; White Cotton Stocking Catches Another's Eye

With the tourist season now in its closing stages, observations on Victoria by some of the many journalists who visited the city are beginning to appear in United States newspapers. It was learned at the Victoria and Island Publicity Bureau today.

One writer calls Victoria "Heaven," while another was in-

trigued by the white cotton stockings worn by waitresses in one of the city's foremost hotels.

Writing in the Medford, Oregon, Mail-Tribune editorial columns, R.W.R. says: "This is undoubtedly one of the most 'English' places on the western hemisphere, and probably when 'Down in the States' we have accepted the results of the revolution and become adjusted to the dictatorship of the proletariat, we can still take a boat from Victoria, and presto return the 'good old days'—the mellow, comfortable, complacent Victorian days—where one has ease and tranquility and no doubts whatever that God's in His Heaven—a very well ordered Heaven—and all's right with the—well the English-speaking and the English-mannered world."

H. E. Jamison, in his column, "Along the Waterfront," in the Seattle Star, says: "The waitresses in the Empress Hotel were dressed in white and, believe it or not, all wore white cotton stockings. I didn't think it was possible to get women to wear cotton stockings in this day and age, and said something about it to my host."

"Well," he remarked, "as you have probably noticed, they are all pretty attractive girls and that's just to give the feminine guests a handicap. No man would ever look twice at a girl in white cotton stockings."

SCHOOL STAFF CHANGES MADE

Four changes in the city teaching staff were announced by the City School Board yesterday following a committee session after 11 this morning when reorganization of the staff was discussed.

Miss Enid McKee was transferred from the Junior High School to Victoria High, and Jack McKenzie was transferred from George Jay School to the Junior High. Jack Adams will be transferred from Sir James Douglas School to vacancies at either Victoria West or George Jay.

After receiving the resignation of Mrs. T. Chappell, the board relieved her of her duties as stenographer and assistant registrar at Victoria College.

In Town Today

Rear-Admiral Ralph Earle, retired naval officer and educator of the United States and now president of the Polytechnic Institute of Worcester, Mass., is in Victoria today with Mrs. Earle.

"We have never been to this coast before and we're in love with it," Mr. Earle said. "You may be sure it will not be our last trip."

Admiral Earle graduated from the United States Naval Academy in 1896. He became president of the Polytechnic Institute after he left the navy in 1925.

Mr. and Mrs. M. H. Reed of Austin, Texas, came to Victoria especially to purchase an Irish setter. Yesterday they found the animal they wanted and left with him this afternoon for home. It is their first visit to Victoria and they came here after visiting the Canadian Rockies and Alaska.

Louis Henry Egan, prominent electrical engineer of St. Louis, is at the Empress Hotel with his wife and daughters, Alice and Patricia. Mr. Egan is a son of one of the Canadian Pacific's first western vice-presidents and he remembers being taken to Banff when he was four years old, where he bathed in the hot springs. Mr. Egan is director of several banks and a trustee of the Edison Electric Institute.

Mr. and Mrs. Daget May of London arrived in the city today during the course of a world tour. Mr. May is one of the directors of the Nugget Company, manufacturers of shoe polish.

Others at the Empress today include O. Leslie Ham, Montreal; R. Leighton Foster, Toronto; Dr. and Mrs. R. J. MacDonald, Winnipeg; Mr. and Mrs. S. W. Caldwell, Vancouver; G. B. Reed, Kingston; Mr. and Mrs. W. W. Miller, Seattle; Capt. and Mrs. E. Drake, Port Townsend; Mr. and Mrs. S. Watson, Calgary; Miss E. Aycliffe, Winnipeg; J. W. Miller, London; Mr. and Mrs. L. L. Jones, Fort Saskatchewan, Alberta; Mr. and Mrs. S. Hopkins, Toronto; Mr. and Mrs. John B. Kay, Toronto.

Under the auspices of the Overseas League, six British tourists arrived today in Victoria, the western terminus of their first trip to the new world. From here they will head back across Canada and sail for Europe.

In charge of the party is Miss Edith Gray, a Canadian, who at one time resided in Winnipeg. Now she lives in London and she thought it a good idea to persuade British people to visit this country.

Miss Gray says the travelers are delighted with Canada, the scenery, the hospitality of the people and the food. They like particularly the gardens, she says, and the habit people have of letting their front lawns run into each other, instead of erecting high fences.

The only man with the party is T. Harris Christian, who lives at St. Alban's, near London. He is 82 years of age and is seeing the world.

"I have a great responsibility on this trip," he says. "I am not only the oldest member of the party, but I am the only man."

Before starting for Canada, Mr. Christian visited in the spring in South America, traveling 1,000 miles up the Amazon. Next year he plans to visit South Africa, Australia and New Zealand and hopes to return to England via Canada.

Miss B. Rolland, who lives on the French Riviera, came especially to Canada to see the Rockies and says she wasn't disappointed.

Gas Convoys Warned

PERPIGNAN, France (AP)—The French departmental prefecture warned French automobile convoys carrying gasoline into government Spain today inasmuch as the announcement he intended to bomb and machine-gun them with airplanes.

Border officials estimated 100 automobiles and trucks loaded with gasoline enter Spain daily.

Olive trees, seventh most important of the trees of the world, are mentioned prominently in Homer's "Odyssey."

Council to Pass Utility Law

Control Plan Scheduled to Be Finally Approved By City Tomorrow

The City Council will meet tomorrow night at 8 to give final passage to the new public utilities by-law by which the city hopes to establish a commission to regulate rates and activities of utilities serving Victoria.

Mayor Andrew McGavin, back from a short holiday in the northwest, stated today R. W. Beck, utilities engineer engaged by the city, and guiding force in the drafting of the legislation, would be present at the meeting. He is expected to reach Victoria tonight or tomorrow morning to proceed with plans on the B.C. Electric franchise.

No comment was forthcoming from the mayor on the announcement by Premier T. D. Pattullo of the province's plan to set up a government utilities board.

The by-law by which the city seeks regulatory powers on utilities matters, has already passed its preliminary readings and would come into effect following passage tomorrow night and registration, it was understood.

Mayor McGavin was back at his desk today after a speedy trip which took him to Portland, Spokane, Wenatchee, the Coulee Dam and Seattle.

During his trip the mayor inspected the dam and had explained to him various features of the operation of hydro equipment as well as irrigation projects.

B.C. Reviews Land Agreements

Official Named to Plan Readjustment of Board Sales and Mortgages

The provincial government is planning a review of land sales and mortgages held by the British Columbia Land Settlement Board with a view to readjusting them and relieving farmers in areas settled under the scheme, it was learned today.

William Turnbull has been appointed at a salary of \$350 a month to review the agreements and make a study of the matter, preparatory to a report on a plan of readjustment.

Mr. Turnbull was secretary to Premier Pattullo during his tenure as Minister of Lands in the Oliver government regime. He left the provincial service about 10 years ago and lived in South America until his return recently.

In the absence at the Kelowna Liberal convention of all members of the cabinet the exact nature of the government's plans could not be learned here today. There has been a demand, however, from settlers for scaling down of charges and writing off in principal. Mr. Turnbull, it is expected, will make a study of the various agreements and the possibility of settlers paying up their debts to the board.

In the last public accounts, the Land Settlement Board owed the provincial treasury \$5,169,768 for advances received to finance settlement schemes.

Against this the board listed assets of \$625,120 in land purchased and developments, \$184,273 in outstanding principal on agreements for sale, \$214,652 in overdue interest on loans and agreements for \$288,835 on loans, \$107,229 in foreclosed mortgages, \$6,689,337 in the Symas Drainage, Dyking and Development District, \$65,000 in the Lister Waterworks District and \$16,754 in the Cameron Drainage District.

RADIO POST FOR IRA DILWORTH

Professor Ira Dilworth of the University of British Columbia, former principal of Victoria High School, will be appointed shortly as regional representative of the Canadian Broadcasting Corporation, according to reports from Ottawa.

This is a new position forecast some time ago by Gladstone Murray, CBC manager, when he announced the corporation would be divided into five regions with a representative of the manager in each. The exact duties have not yet been defined.

Professor Dilworth has been with the university for four years, in the department of English. He was six years as head of Victoria High School and special lecturer at Victoria College.

"The Next Four Years on the North American Continent" will be the subject of an address by O. Corbett of Technocracy Incorporated tonight at 8.15 at 222 Pemberton Building.

TOWN TOPICS

The newly-elected queen of Anacortes, accompanied by five attendants and two chaplains, arrived this afternoon for an overnight visit. They are registered at the Strathcona Hotel.

Bank clearings in the city for the week ended today were \$1,530,759, according to a statement issued by the Victoria Clearing House. Figures for the same period last year were \$1,556,549.

C. H. Higginbottom, city editor of the Regina Leader-Post, arrived in town today with his wife for a week's vacation. They are planning a trip up-Island and at the present are registered at the Dominion Hotel.

Theft of \$120 from a bureau drawer in his room at 638 1/2 Herald Street, was reported to the city police yesterday by Fong Gee, Chinese. Fong said his room had been entered within the last two weeks.

Rev. Arnold Paynter will be the guest speaker at the mid-week public meeting tonight at 8 in the Salvation Army Citadel, Broad Street. He will speak on "Missionary Work in India." The band of the youth group and the singing company of the citadel corps will give musical selections.

Date of the Seventh Battalion reunion dinner at the Quadra Club in Vancouver on September 3, has been chosen to afford out-of-town members an opportunity of attending the Canada Pacific Exhibition, August 29 to September 5, and of taking advantage of reduced traveling rates during exhibition period. Rates will be single fare for return trip by rail, fare and a quarter by boat from Vancouver Island in effect from August 24 to September 5, with final date of return September 8.

To accommodate exhibitors at the 76th annual fair of the B.C. Agricultural Association to be held at the Willows from September 10 to 17, a downtown office will be opened in rooms 224 and 225, Sayward Building, from August 29 to September 3. It was announced today by W. H. Meares, secretary of the association. All livestock entries are in, but the last minute rush in other departments of the fair will start soon. All entries must be in by September 3 so that they can be listed prior to the starting of judging.

Claims Tomato Scheme Invalid

P. J. Sinnott Contests Legality of Controlling Hothouse Products

On the grounds that hothouse tomatoes were not a natural product as contemplated by British Columbia's Natural Products Marketing Act, P. J. Sinnott contested the validity of the hothouse cucumber and marketing scheme before Magistrate Henry Hall in the City Police Court this morning. Judgment was reserved until tomorrow.

Defending Alexander McCormick on a charge of marketing hothouse tomatoes without a license or exemption issued by the board, Mr. Sinnott said he was not questioning the validity of the Marketing Act itself, but only the operation of the cucumber and tomato scheme administered under it.

Facts in the case which showed the defendant had failed to take out a license or an exemption, were not disputed by Mr. Sinnott.

The scheme, he argued, was ultra vires as it dealt with an article of artificial propagation and not one of natural produce. Under the act a natural product was defined as a product of agriculture, forest, sea, lake or river, or any other article of food or drink derived from these.

His argument, he said, evolved around whether hothouse tomatoes were a product of agriculture. He quoted definitions of the word agriculture from English and U.S. dictionaries, which defined it as meaning tillage, husbandry or farming. He claimed the scheme did not apply to produce of artificial production.

Hothouse tomatoes might be grown in the courtroom or on top of the Bank of Toronto Building, "and could it be said that a man so growing them was an agriculturist?" he asked. Surely production under glass was not agriculture, he said.

C. L. Harrison, prosecutor, pointed out that the Interpretation Act called for the broadest interpretation of statutes, and the fact that a product might be grown artificially did not take away its general classification. A natural product, he argued, was one which could be, and ordinarily was, produced by agriculture.

Control Lower False Teeth

Dr. I. H. Ante Here to Demonstrate Greater Mouth Comfort

Lower dentures, which jump and rattle in the mouths of many persons using artificial teeth, will soon be a thing of the past. They can be as firmly held in place as the upper, according to Dr. Irvin H. Ante, professor of the prosthetic department of the faculty of dentistry of the University of Toronto, who is in Victoria to tell members of the dental association how it is done.

With him is a traveling patient, C. Todman, of the Canadian Corps of Commissionaires. Mr. Todman sits patiently while Dr. Ante illustrates to dentists how to control the muscles of the lower mouth so that dentures will remain firm.

Tomorrow Dr. Ante will lecture to the Victoria Dental Association. His method is a modification of the intricate one discovered by Dr. Fournet and Dr. Tuller of New Orleans.

The Fournet-Tuller method took three to five hours and was the work of a specialist. From it Dr. Ante has evolved a system whereby it is possible to complete the work in 20 minutes to an hour.

"The muscles of the lower mouth which have been interfering with the lower denture as a retaining force," Dr. Ante said, "the trouble was that before these muscles thrust the denture upward. Now they are being used to hold it firmly in place."

Dr. Ante will also advise the dental fraternity on a study in phonetics. Artificial teeth, he says, upset a lot of people's speech, and there is no reason why they should.

Rotary Host to 19 Schoolboys

T. W. Hargreaves, Teacher From New Zealand, Is Speaker

The Rotary Club of Victoria played host to 19 boys from the Waitaki High School, New Zealand, and the teacher in charge, T. W. Hargreaves, who spoke at the luncheon of the club in the Empress Hotel today.

The Waitaki School was situated in the town of Oamaru, on the southern island, which had a population of approximately 9,000, the speaker said. The school was famed throughout the country as a national institution, being run by the state yet where the students all boarded.

The school life was centered around a Hall of Memory presented by the Old Boys' Organization in that district, in honor of those who died during the World War. A half hour was spent each morning in a service in the hall, giving the students a spiritual start on the day's work. The main sports participated in were cricket and rugby.

The speaker told interesting facts about New Zealand. The country was very fertile and the northern island was highly cultivated. The largest export was wool, with butter and cheese taking second position. The farms were comparatively small, the average covering 170 acres. Farming methods were scientific. The country was self-supporting in their wheat production. The majority of the wheat was grown on plains east of the mountain range on the southern island. The mining industry was quiet, although the ground was extremely rich in mineral content, mainly gold and coal.

The speaker was introduced by Herbert Pendray, G. Hamilton Harman was in the chair.

DETAILED STUDY FOR RELIEF BILL

Rebate claims of the federal government against the city for "improper" allocation of relief payments, were referred by the relief committee to the relief officer and city comptroller for detailed study yesterday.

The claim amounts to over \$54,000. It was discussed briefly at yesterday's session of the committee. Alderman S. H. Okell, chairman, stated.

"We didn't see how we could be held liable, but we wanted to give the matter full consideration before making a recommendation to the council," he said.

Mayor Andrew McGavin, out of town when the bill was received, voiced the opinion the money could not be justly claimed from the city.

The luminousness of the firefly is the "cheapest" of all known forms of light, but man does not know how to produce it.

OBITUARIES

FREDERICK A. S. EVANS
 Many friends were at the funeral of Frederick A. S. Evans, led by Rev. F. Conley, in Hayward's B.C. Funeral Chapel yesterday afternoon. The hymn, "The King of Love My Shepherd Is," was sung by the congregation. Burial was in Royal Oak Burial Park, with F. Greenwood, W. S. Oliver, D. P. Hanley and A. E. Scaife acting as pallbearers.

LOUISA BROOKE KING
 The funeral of Mrs. Louisa Brooke King was led by Rev. A. D. Reed D.D., in McCall Brothers' Funeral Home yesterday afternoon before many friends. The hymns sung were "Jerusalem the Golden" and "The Sands of Time." The pallbearers at the funeral in Ross Bay Cemetery were W. Sones, J. L. Jeffery, J. Wannamaker, C. Hadland, L. Weber and M. L. Danchuk.

DAVID SIM
 Rev. William Allan, assisted by Rev. H. A. Ireland and Rev. W. P. McHaffie, led the funeral of David Sim in Garden City United Church yesterday afternoon. Friends of the late Mr. Sim filled the church to capacity, proving the high esteem in which he was held in Victoria. The hymn held in Victoria. The 23rd Psalm was sung. Burial was at Colwood, with T. Anderson, J. Jones, A. P. Fryatt, G. N. Kivell, J. Chalmers and J. Hobden as pallbearers.

JOSEPH McDONALD
 Joseph McDougald died at the Royal Jubilee Hospital this morning, in his 47th year. Born in County Glengarry, Ontario, he had lived in Victoria for the last 30 years. Survivors are an uncle, J. Valley, in Victoria and several cousins in eastern Canada. The body is resting in the chapel of Sands Mortuary. The funeral procession will leave there on Saturday morning at 8.50 and mass will be celebrated in St. Andrew's Cathedral by the Rev. Father J. Crothers. Burial will be in the family plot in Ross Bay cemetery.

HENRY SAMUEL GILBERT
 Rev. F. C. Hayman led the funeral of Henry Samuel Gilbert in the presence of many friends at Thomson's Funeral Home yesterday afternoon. The hymns "Abide With Me" and "Lead Kindly Light" were sung. Masses of flowers showed the esteem in which Mr. Gilbert was held. The funeral was under the auspices of Pride of the Island Lodge, Sons of England, of which Mr. Gilbert was a member for many years. Brother H. Milnes, president of the lodge, and its chaplain, Brother W. A. Carpenter, led the service at the graveside. The pallbearers were F. Veilacott, E. Prescott, George Wright, Robert O. Renaud, E. G. Corless and J. R. Saunders.

PREMIER RIDES IN STAGE COACH

KELOWNA (CP)—Premier T. D. Pattullo and two cabinet ministers rode in an old Cariboo stage coach drawn by four horses before the Premier opened Kelowna's one-day racing meet at Knox Mountain Park today. The coach driven by Gus McDonald of Kelowna pulled up in front of Mr. Pattullo's hotel. Two horsemen rode ahead and two beside as mounted escort.

The Premier entered the bright red coach ahead of Hon. George Weir, Minister of Education; Hon. K. C. MacDonald, Minister of Agriculture, and Dave Chapman of Kelowna, then the coach swung around on the street and headed a parade to the race track.

PENALIZED ON MERCY ERRAND

PORT ARTHUR (CP)—Flying Alderman Al Cheesman went on an errand of mercy to Isle Royale to bring here for hospitalization two civilian Conservation Corps camp workers, and was threatened with a fine of \$1,000 by the United States immigration authorities.

Patients were Donald Watson and Lawrence Allen, who had been stricken with appendicitis. When Alderman Cheesman left Port Arthur he had no permit to fly into U.S. territory. He had, however, communicated to the U.S. immigration department at Duluth and got temporary permission to make the mercy trip.

"But remember, Mr. Cheesman," said one of the officers, "we'll fine you \$1,000."

"That didn't sound so good to me," said Alderman Cheesman, discussing the trip, "but in the next breath the official said, 'but we'll remit it.'"

FOR OLD LINOLEUM
 When holes begin to appear in the linoleum that has been down for a number of years, try pouring hot paraffin into them and pressing it down evenly with a knife. It will prevent further tears, as the heels will not catch in the holes, and the paraffin will show surprisingly little.

Montreal Maroons Disband for Year

NEW YORK (CP)—The National Hockey League board of governors today granted the financially-harassed Montreal Maroons the right to suspend operations for one year. The league will operate this season with seven teams.

Earlier the governors rejected an application made by Thomas P. Gorman and F. P. Common, K.C., of Maroons to transfer the club to St. Louis on an optional agreement.

Mr. Gorman reported back to his directors this afternoon and then applied to have the team franchise temporarily suspended.

Ottawa Nervous Over Threatened Wheat Losses

80-cent Guarantee, However, Seen As Justifiable Priming

By NORMAN M. MACLEOD

OTTAWA — With the United States threatening an export subsidy policy which will throw huge quantities of wheat on the world market—to the serious detriment of world prices—and Winnipeg wheat this week daily slumping to new five-year lows, federal government's policy of guaranteeing 80 cents per bushel to the growers of western Canada automatically moves into first place in the situation the national treasury is watching with interest and with concern.

Every cent wheat averages below 80 cents per bushel would cost the taxpayer of the Dominion \$2,500,000. This figure is an official government calculation and is based upon an expectation that the federal wheat board will be called upon to handle a 250,000,000-bushel crop.

At present October and December wheat is quoted around 64 to 65 cents. That means a prospective federal loss already of upward of \$40,000,000. Sixty-cent wheat—which is recognized as by no means impossible if the U.S. government initiates a large-scale policy of bonusing exports—would mean a loss to the national treasury of \$50,000,000. The market this week has witnessed the phenomenon of No. 1 northern Canadian December wheat selling lower than soft December wheat in Chicago.

FORM OF PUMP-PRIMING

The situation which has developed in respect to the world wheat market is regarded by the wing of the cabinet which opposed the 80-cent minimum as confirmation of its predictions. It is generally believed on Parliament Hill that the policy was only agreed to by the ministers under the insistent pressure of Hon. J. G. Gardiner, Minister of Agriculture, who contended that such action was necessary to offset the tariff discount which existed on the prairies.

A majority of the cabinet is understood to have originally opposed the proposal, but to have acquiesced finally under the pressure of Mr. Gardiner's insistence, coupled with a belief that if the loss on the transaction was not too great, it would constitute perhaps the least objectionable form of pump-priming that could be carried out in the west, with a view to restoring purchasing power to that section of the Dominion.

At the same time the ministers who agreed only under pressure are said to have warned Mr. Gardiner that the inevitable danger in his policy was that it would precipitate competition in subsidies from other producers, with the result that world prices would be driven lower by international "dumping."

CO-OPERATION IN MARKETING

The impression is that the export subsidy which Washington will pay may run as high as 25 cents per bushel. Little prospect of relief from this form of competition for the available world market is seen, furthermore, in the intimation from Washington that the United States authorities will be prepared to co-operate with Canada in any course which may be followed. Parliament Hill interprets this intimation as simply an indication that the United States will use Canadian remedial measures towards the western growers as the yardstick for its own subsidies.

The only co-operation which could be carried out between the two countries, as Parliament Hill sees the situation, would be co-operating in orderly marketing. That would mean, however, holding wheat off the market by agreement, whenever further offerings threatened to depress the price below a stipulated level—say 70 cents. The Mackenzie King Government is definitely committed, however, to the policy of offering Canadian wheat to the world market at whatever may be the prevailing quotation. Its whole attack upon the wheat policy of the late Bennett Government was based upon the contention that the policy had created a huge carry-over which overhung the market and prevented prices from righting themselves. At the time at which it announced the 80-cent minimum some weeks ago, the government repeated its assurance that it would offer the wheat at whatever might be the world price, as long as there was any export demand.

In the light of this situation, Parliament Hill fails to see any

Smart Picture Will Be Held

Capitol to Play "Alexander's Ragtime Band" for Week

The management of the Capitol Theatre today announced the most talked-about picture of the year, Irving Berlin's "Alexander's Ragtime Band," will be held over by popular request. Tyrone Power, Alice Faye and Don Ameche are starred. Directed by Henry King, the film is hailed as an American cavalcade.

"Lord Jeff" At the Atlas

Freddie Bartholomew and Mickey Rooney Make Fine Team

Freddie Bartholomew and Mickey Rooney, two of the most popular boy stars developed by motion pictures, carry the leading roles in "Lord Jeff," which is now the feature attraction at the Atlas Theatre.

This is a story of the training of boys for the British Merchant Marine. Many splendid pictures of the sea are featured and in all ways the picture is an exciting one.

WHERE HAPPINESS LIES

To the Editor:—Charles Dickens, in a Christmas Story shows the dire effect on a man whose prayer, that all memory of his past experiences be obliterated, was granted. And whose prayer, after finally being allowed to become normal again, was "Lord, keep my memory green."

A local Summer School lecturer, tells the teacher-students that happiness lies not in past memories, or in wishes for the future, but is only to be looked for in the present. This is the Fascist creed, which finds memory of former liberty, freedom of thought, etc., inconvenient. And as for "wishes for the future," all this must be left to the dictator.

The professor ranks "satisfaction of bodily needs" as No. 1 ingredient for happiness. An axiom thoroughly in tune with the realistic policy of this modernistic education. Realism being opposed to idealism.

The teachers are also advised to strive for "a sense of security, not financial, but of belonging to the group and being respected in it." Which is moral cowardice. It means being afraid to stand alone. Mass psychology opposed to democratic individualism.

The professor also lists as ingredient for happiness "ability to accept changing artistic standards."

Modernistic art is retrograde. It is a reversion to barbarism, to lunctic inaccuracy, peasant roughness and discordant barbaric color. Its importance may only be recognized by the fact that it is a long-term program. Hitler highly approves of it, as applied to democracy.

In Christian Science Monitor, July 11, 1938, page 3, Hitler refers to modernistic art as "democratic barbaric backward exemplifications of the ugly Stone Age. And we are happy," continues Hitler, "that democracies have opened their gates to the backward tending elements."

Another professor (the art one) tells local Summer School teachers that cubism has been useful in bringing art back to "solid mass" and "simple plane." Just so. All same Stone Age!

Cubism is in reality a small unit of the propaganda secretly carried on against Grecian art and architecture. It was invented long before Fascism, is a product of Rome and was introduced into England by Italians led by the artist Fascist Mogliani. It represents geometrical rigidity opposed to the Grecian curve. The various ramifications of its significance would take too long to explain.

"Lord, keep my memory green." GLADYS SHRAPNEL. 1578 Clive Drive.

practical possibility of Canadian-United States co-operation in carrying out what are essentially competitive subsidy policies.

Whelan, "Gateway," opening tomorrow at the Dominion Theatre.

According to Associate Producer Samuel G. Engel, the screen play by Lamar Trotti, based on an original by Walter Reisch, provides a marked departure from the usual Hollywood romance.

Popular Star At Columbia

Robust, blazing adventure took its place on the Columbia Theatre screen today when Columbia's newest Charles Starrett thriller, "Cattle Raiders," made its local bow. Easily one of the best in the Starrett line, this picture provides range songs sung by such stalwarts as Donald Grayson and the Sons of the Pioneers.

Oak Bay Holds Over Picture

Robert Donat, handsome English screen and stage star who makes his first appearance in a U.S. picture in the title role of the Harry M. Cohn-Edward Small million dollar Reliance production, "The Count of Monte Cristo," now at the Oak Bay Theatre, could have started his Hollywood career two years earlier than he did.

The young actor turned down an offer to play opposite Norma Shearer in "Smilin' Through," the part which Frederic March finally took, because he did not want to leave London at that time.

Ellis Island Is Locale of Film

Dramatic Ellis Island—last portal of freedom—provides the background for the absorbing story in which 20th Century-Fox stars Don Ameche and Arleen

Airplane Epic At the Plaza

"Non-stop New York" is Exciting Picture of Atlantic Passenger Flights

"Nonstop New York," which opened at the Plaza Theatre today, is Gaumont's much-heralded and prophetic picture of trans-Atlantic passenger service. The reproduction of the oceanic plane of the future is entirely convincing, the direction is perfect, and the acting on a high plane throughout.

What carries this thrilling picture to the top in entertainment, however, is its humor and pace.

Steady Upswing In Business

Basic Industries Winning
Back Lost Ground
in U.S.

WASHINGTON (AP)—Three federal agencies in the United States offered today statistical evidence of substantial business improvement in recent weeks.

The Federal Reserve Board calculated the upswing in steel, textiles, petroleum, shoe and other industries had won back in the last seven weeks all the ground lost in the previous seven months.

At the Treasury, a 25 per cent spurt in customs collections indicated conditions had improved to the point where purchases of foreign raw materials and other merchandise were affected. Since many basic raw materials imported by American industry are duty free, officials regarded the customs gains as particularly significant.

The Commerce Department reported the first favorable turn in its index of national income in nearly a year. July income declined less than the usual seasonal amount, and the nation's income from wages, dividends and other sources was estimated at \$35,300,000,000 for the first seven months of the year.

Because this was not far from the \$39,000,000,000 income in the similar portion of last year, statisticians indicated a belief continued business improvement might bring the 1938 total close to last year's \$69,300,000,000, highest since 1929.

The Reserve Board said its index of industrial production rose from 77 per cent of the 1923-25 average in June to 83 per cent in July, and gained further in the first three weeks of August.

QUEBEC REPORTS REVENUE SURPLUS

MONTREAL (CP)—Quebec had a surplus of \$3,008,335.70 of ordinary revenues against ordinary expenditures in the year ended June 30, Provincial Treasurer Martin Fisher announced.

Expenditures during the fiscal year amounted to \$35,335,750 and revenue totaled \$38,344,037, the treasurer announced in a financial statement made public at government offices here.

Extraordinary expenditures for aid to colonization, unemployment relief and similar purposes amounted to \$12,446,555. Direct relief cost the province \$2,482,427 and public works to relieve unemployment amounted to \$8,601,952.

Succession duties provided the highest individual source of revenue for provincial coffers, with a total of \$11,837,571 collected. Gasoline taxes brought in \$7,347,409 and automobile licenses, fines and other charges accounted for \$7,183,540.

Liquor sales brought in \$4,258,747 and permits and duties on liquors accounted for \$1,968,405. Revenue from the lands and forests departments was \$5,631,040 and mines revenue was \$1,432,762.

WILL PRAY FOR RAIN CESSATION

QUEBEC (CP)—Roman Catholics throughout Quebec diocese were called upon today by Mgr. J. Omer Plante, auxiliary bishop, to offer public prayers in their churches next Sunday for cessation of heavy rains threatening crops. In all the churches Sunday a special hour of prayer will be held.

Sir H. P. Croft Is Enroute East

VANCOUVER (CP)—Sir Henry Page Croft, British Parliamentary leader, was en route east today after a fortnight's tour of British Columbia in the interests of Empire migration.

Sir Henry, Councillor R. S. Dalgleish of Newcastle-on-Tyne, and Brig. Gen. M. L. Hornby of Lethbridge left Vancouver last night for Regina via Calgary.

Calgary Oils

CALGARY (CP)—Following a week of quiet trading, volume increased considerably on the local stock exchange this morning, and while only one senior issue dropped, firm prices ruled the board.

A rush of buying orders featured the session, and at the close, 16,710 shares had changed hands. Okalta was the only stock to decline, closing five lower at 120.

Anacosta was firm at 81, Freehold was unchanged at 44, United was steady at 12.

WARREN TO STUDY BRITISH MARKET

TORONTO (CP)—J. J. Warren, president of Consolidated Mining and Smelting Company of Canada, announced he will leave for England Saturday to confer with British authorities on lead and zinc metal marketing conditions in Great Britain.

Crop Control Fight Looms

Major Battle Predicted
When U.S. Congress
Convenes

WASHINGTON (AP)—Administration farm leaders expect a major fight in the next Congress over a proposal to replace the United States' "ever normal granary" crop control plan with domestic allotment and price-fixing regulations.

Declining farm prices and accumulating crop surpluses have stimulated agitation for revision of the 1938 Farm Act among cotton and wheat growers.

Henry Wallace, Secretary of Agriculture, has indicated, however, he will carry his defence of the present law to the farmers before Congress convenes.

The proposed domestic allotment program, which had strong support in the last Congress, would eliminate the present acreage allotment, marketing control and benefit payment provisions. Farmers would be free to produce as much as they desired, but could sell only a specified share, or allotment, of the domestic market.

For example, if domestic needs were estimated at 650,000,000 bushels of wheat, that amount would be prorated among the growers. The buyer would be required to pay a price fixed by the Secretary of Agriculture for the allotted shares.

The Domestic Allotment Bill in the 1938 Congress provided for prices which would assure the grower cost of production. This could be changed to require "parity" prices, the goal of the existing law. Those prices would be about 15.9 cents a bushel for cotton, 82 cents a bushel for corn and \$1.13 for wheat. Farmers now are receiving an average of about 8.25 cents for cotton, 50 cents for corn and 55 cents for wheat.

The government would sell the surplus crops in foreign markets at whatever prices it could get.

New Companies

Registration of new companies in British Columbia was light this week, the registrar of companies office reported today. One Victoria firm was among the six new provincial companies.

The list follows:
Sussex Cafe Ltd., \$10,000, Victoria.
La Marr Gold Mines Ltd. (N.P.L.), \$100,000, Vancouver.
Gillman & Macintyre Ltd., \$10,000, Vancouver.

D. J. Smith Equipment Co. Ltd., \$25,000, Vancouver.
Acme Peat Products Co. Ltd., \$10,000, Vancouver.
H. J. Duncan Ltd., \$10,000, Vancouver.

Extra provincial:
The J. R. Watkins Co., \$2,500, 000 and 150,000 shares, Winona, Minn., and Victoria.

Societies:
The Gry Club (Gun, Rod and Yacht), Vancouver.
Fairfield Co-operative Producers' Association, Chilliwack.

Savings Deposits Show Increase

Total Banks in July Given
at \$1,622,606,000

OTTAWA (CP)—Savings deposits in chartered banks at the end of July totalled \$1,622,606,000, a slight increase over the previous month-end, but an increase of \$50,000,000 over July 31, 1937, according to the monthly report of chartered banks to the Finance Minister.

Current accounts, at \$671,165,000, were down \$18,000,000 from June 30 but up about \$35,000,000 compared with the previous year.

Call loans in Canada were only slightly changed in the month, but down \$42,000,000 compared with July 31, 1937, while call loans outside Canada were unchanged from June 30 but down \$20,000,000 from the previous year.

Canada Mining Hurt in Britain

Share-pushing Blamed
By W. A. McAdam for
London Attitude

VANCOUVER (CP)—W. A. McAdam, acting agent-general for British Columbia in Great Britain, said in an interview here today that it was a "matter of regret that the Canadian mining industry is not looked upon more favorably by London financial houses."

"This is due to a number of reasons, the chief being in my judgment that so many prospects get into bad hands. The fault, I believe, does not as a rule lie with the Canadian promoter," Mr. McAdam said.

"He comes to London honestly enough with a prospect, which he represents as a prospect and nothing more. He attempts to finance it through legitimate channels, fails, and then innocently enough drifts into the share pushing, who is probably masquerading under the name of some high-sounding firm."

"Presently our Canadian friend is persuaded to cede a block of shares at prospect price and before he understands what is happening, those shares are being foisted on the public at a grossly enhanced figure."

"It was my privilege under authority of the government to give evidence some time ago before the commission on share pushing, held under the auspices of the British Board of Trade."

"I submitted, among other things, all data relating to our Securities Act and I am happy to see that in the draft of the Prevention of Fraud (Investments) Bill which will probably come before the next session of the Imperial House of Commons, some features of our Securities Act have been incorporated."

"The passage of the bill will, I hope, do much to eradicate an evil which has had so adverse an effect in the development of legitimate mining in this province."

Calgary Livestock

Common to medium butcher steers 3.00 to 4.50; good heifers 4.25 to 4.50; common to medium 3.00 to 4.00; good cows 3.00 to 3.50; common to medium 2.00 to 2.75; good bulls 3.00; common 2.65.

Good to choice veal calves 5.50 to 6.25; common to medium 3.00 to 5.00.
Good stocker and feeder steers 4.00 to 5.00; common 2.75 to 3.25. No hogs sold. Selects 9.15; bacon 8.65; butchers 8.15.

Foreign Exchange

NEW YORK (AP)—Foreign exchange, noon rates:
Great Britain in dollars, others in cents. Great Britain 4.88 1/2, 60-day bills 4.87 1/2; Canada, Montreal in New York, 97.75; New York in Montreal 100.25.

London Market

LONDON (AP)—Brewing and rayon shares were active and up on the stock market today and railroad securities continued their recovery. Trans-Atlantic issues closed slightly below Wednesday's final prices and British funds were about unchanged. The industrial section remained quiet but good support appeared higher and fairly active.

Nellie Bly's World Trip

IV—CROSSING THE PACIFIC
At Hongkong Nellie Bly had to spend five days waiting for her next steamer. It was the Christmas season, but the Chinese were not excited about it. Only the British and other foreign white residents were much interested in the holiday. They welcomed the world traveler, and invited her to many parties. She didn't accept because she felt that neither of her two dresses was suitable for such events.

A sketch of Nellie Bly made during her trip around the world.

Making an excursion to Canton, she spent Christmas Day there, and had her lunch in a building known as the Temple of the Dead. Three days later she boarded the Oceanic at Hongkong, and steamed toward Japan.

At Yokohama and Tokio, Nellie found that the news of her trip had come before her. She was met at the Yokohama dock, and was taken around to see the sights while the ship was in port.

She enjoyed her days in Japan, but was anxious to start the Pacific crossing. The captain told her he had crossed the great ocean the last time in 13 days, and hoped to do at least as well this time, and better if possible.

On January 7 the Oceanic left Yokohama. The sailors and even the stokers said they would work hard for a fast journey. On the boilers and other parts of the vessel signs were posted up, each with the same words:

"We'll win or die for Nellie Bly!"

For three days all went well, and the vessel made 75 miles more than on the previous crossing. Then came heavy winds and high waves. The name Pacific means "peaceful," but there was not much peace the rest of the voyage.

There was one good thing about the voyage for Nellie Bly. Despite the rough weather, she did not get seasick. The trip from Yokohama to San Francisco was made in 14 days and two hours. That is counting the extra day people have when they cross the Pacific from east to west, thanks to the International Date Line.

News of Nellie Bly's return was printed in New York in this way:

"At daylight yesterday morning, she stepped from the deck of the steamship Oceanic at San Francisco, after having traveled more than 21,000 miles in 68 days. She still has a journey of 3,000 miles ahead of her. The arrival was awaited by a large gathering of people. When Miss Bly put her foot on American soil, a hundred hands were stretched out to her in friendly greeting."

In a present-day welcome home gathering, "a hundred hands" wouldn't be very many. Ask Mr. Hughes or Mr. Corrigan! Nellie Bly, however, was not yet back in New York.

HOROSCOPE

Friday, August 26, 1938

According to astrology this should be a fairly favorable day for personal affairs. It is auspicious for women who make changes in their environment or who seek new associations in business.

While there is an encouraging away for progressive activities, there may be many pitfalls in business, owing to secret contracts and misrepresentations.

The configuration stimulates intrigue and plotting. Women are warned that they will be sought as tools in minor schemes for partisan success.

As the month closes it is probable that there will be many rumors disturbing to business prospects. Labor troubles are prophesied. Violence may be the result of unfair policies in dealing with laborers.

Epidemics again are presaged. Portents of perils through diseases imported from foreign lands are discerned.

Persons whose birthdate it is have the augury of a year of work and prosperity. Novel experiences are forecast.

Children born on this day probably will be ambitious and capable of successful initiative. Subjects of this sign are steady and dependable, courageous and forceful.

A BEAUTY CONTEST WINNER, SHE LEFT STORE CARRYING TO SING WITH HIS BAND LATER QUIT BECAUSE SHE LOVED HIM! HE PROPOSED, SHE SAID, "OH, KAY!"

Dorothy Dix's Letter Box

I heartily advocate the remarriage of young widows. Death has written "finis" to one chapter of their lives. That is ended, but there is no reason why they should not begin another one that may bring them even greater happiness than the first, and that, at any rate, will not leave the pages of their lives so blank as they will be if they live alone. For being married unfits a woman for single blessedness.

Having been at the head of her own house she cannot fit into any other woman's house, and if she tries to run her own house it is empty with no man in it. There is no kick in getting up good meals if there is no man to eat them. She misses the strong arm on which she has leaned. She misses having somebody to go about with. She misses even her husband's grumbling and having somebody to fight with and blame for everything that goes wrong.

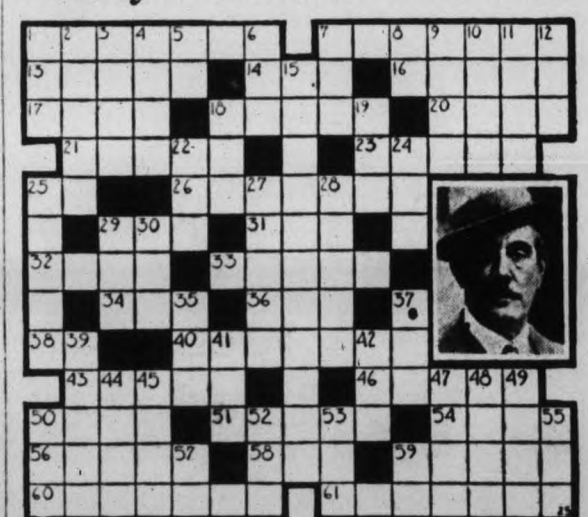

Many young widows refrain from marrying for fear of giving their children a stepfather who will not be kind to them. This is a very imminent danger, because many men are jealous of their stepchildren, and so it behooves a woman who is thinking of marrying a second time to be very certain that she is getting a man who is not only fond of children, but who has the wisdom and patience to deal with adolescents.

But, even so, the widow has to think of herself as well as her children. In a very few years they will be grown and gone from the home nest, and in the meantime she may have let the years pass in which she could have married again and established her own home. And it is far better for Mother to have done that than to be dependent upon them.

Do not worry because you are not so romantically in love with this man as you were with your husband. That sort of love comes only when we are young, and in time that, too, changes into a beautiful friendship, if it lasts at all.

DOROTHY DIX.

Today's Crossword Puzzle

- | | | | |
|--------------------------------------|--------------------------------------|-----------------------------|-----------------------------|
| HORIZONTAL | 50 Armadillo. | VERTICAL | 18 To permit. |
